

Allen J. Martin Park Multi-Benefit Stormwater Capture Project

○ Project Scope

The project will divert urban and stormwater runoff from nearby unincorporated communities into infiltration galleries underneath the park fields. The project will also include above ground landscaping, Low-Impact-Development features, and educational signage.

○ Project Benefits

The project will improve the quality of our rivers and ocean, increase local water supply (Main San Gabriel Basin), and provide educational and outreach opportunities.

○ Project Location

- Allen J. Martin Park (14830 E. Giordano St, La Puente)
 - E. Giordano St and California Ave

○ Cost Estimate

- Total Project Cost: TBD
- Volume Captured: Approximately 14 Acre-Feet

○ Tentative Milestone Schedule

- Currently – Planning Phase
- 2018 – Complete Project Concept Report with 30% design plans
- 2019 to 2020 – Prepare Design Plans
- 2021 – Award Construction Contract
