

Proposed Unincorporated County Stormwater Capture Project Viewridge Rd Super Green Streets

○ **Project Scope**

To divert urban and stormwater runoff from local unincorporated communities for groundwater infiltration and landscape irrigation reuse. The project will also include Low-Impact-Development landscaping features and educational signage.

○ **Project Benefits**

The project will improve water quality by reducing pollutants such as bacteria from entering Malibu Creek and the ocean and provide an alternate source of water for irrigating the County park facility.

○ **Project Location**

- Various along and near Viewridge Rd, Topanga, CA 90290

○ **Cost Estimate**

- Total Project Cost: \$3.3M
- Drainage Area: 100% UA
- Volume Capture: 7.76 Acre-Feet

○ **Tentative Milestone Schedule**

- April 2018 – Complete Project Concept Report
- 2018 to 2019 – Prepare Design Plans
- TBD – Construct Project
