

Long Beach Airport Project

○ **Project Scope**

The proposed project will divert urban and stormwater runoff from the Los Cerritos Channel into infiltration galleries underneath the Long Beach Airport, with a total storage capacity of 41 acre-feet.

○ **Project Benefits**

The project will improve the quality of our rivers and ocean and increase our local water supply (Central Basin).

○ **Project Location**

- Long Beach Airport in the City of Long Beach
 - N Lakewood Blvd and E Spring St

○ **Cost Estimate**

- Total Project Cost: \$22.75M
 - Phase 1: \$9M; volume capacity = 14 acre-feet
 - Phase 1A: \$13.75M; volume capacity = 27 acre-feet
- Below is the recommended funding contribution

Project Partners	Phase 1	Phase 1A	Total
City of Long Beach	\$4.5M*	\$3.083M	\$7.583M
City of Signal Hill	\$4.5M*	\$3.083M	\$7.583M
Los Angeles County Flood Control District	\$0M	\$7.583M	\$7.583M
TOTAL =	\$9M	\$13.75M	\$22.75M

*Project received \$9M grant from Caltrans

○ **Tentative Milestone Schedule**

- February 2018 – Complete construction of Phase 1
- March 2018 – Begin construction of Phase 1A pending funding contribution
