

Jake Kuredjian County Park Regional Stormwater Capture Project

○ **Project Scope**

To divert urban and stormwater runoff from local unincorporated communities for groundwater infiltration and landscape irrigation reuse. The project will also include Low-Impact-Development landscaping features and educational signage.

○ **Project Benefits**

The project will improve water quality by reducing pollutant such as bacteria from entering Santa Clara River and the ocean and provide an alternate source of water for irrigating the County park facility.

○ **Project Location**

- Jake Kuredjian County Park (26265 Pico Canyon Rd, Stevenson Ranch)
 - Near Pico Canyon Rd & Stevenson Ranch Pkwy

○ **Cost Estimate**

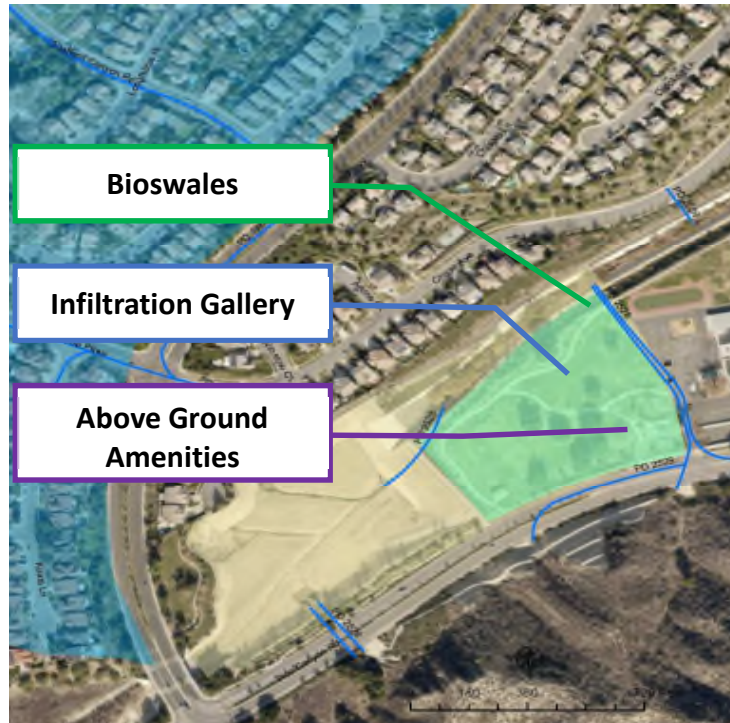

- Total Project Cost: \$11 M
- Volume Captured: 9.5 Acre-Foot

○ **Tentative Milestone Schedule**

- Currently – Planning Phase
- 2018 – Complete Project Concept Report
- 2018 to 2019 – Prepare Design Plans
- 2020 – Award Construction Contract
