Comments

My name is Kathleen Johnson and I'm a 30-year, river-adjacent neighbor and Executive Director of Los Angeles River State Park Partners (LARSPP), founded in 2017 as the nonprofit support organization for the three State Parks on the LA River, including the now-under-development Bowtie parcel. Through public programming, restoration, and advocacy work, we build climate resilient native habitat for both residents and wildlife alike, as well as help ensure equitable access to the parks for the adjacent, historically underserved residents.

The Project will provide multiple benefits for both residents and wildlife, including improved water quality, increased tree canopy and native habitat, and educational opportunities for people of all ages. By combining ecological value with unique opportunities for community access and engagement, TNC's Los Angeles River Habitat Enhancement Project at the Bowtie is precisely the type of transformative, multi-benefit project we hope to see at our LA River State Parks. And so we are in full support of complete funding for the Project.

In my position supporting the river State Parks, I'm especially passionate about helping to ensure that once a site is developed, it can be properly resourced and maintained over time. That's why I urge you to support TNC's proposal to fund the operations and maintenance of the project. Our community urgently needs multi-benefit projects that are funded for ongoing maintenance and operations, as this is one of the primary ways to ensure that our communities will be able to enjoy the full benefits of the site long-term.

Comments

I request to make a public comment during the meeting in support of the Bowtie Demonstration Project. I request Spanish-language interpretation.

Hola. Mi nombre es Raúl Macías y soy el director ejecutivo de Anahuak Youth Sports Association. He estado trabajando con miembros de la comunidad en los vecindarios cercanos al Bowtie Demonstration Project durante más de 20 años.

Apoyo la financiación completa para los costos de mantenimiento y operaciones de The Nature Conservancy para el proyecto.

El Proyecto mejorará la calidad del agua, aumentará los árboles y proveerá oportunidades educativas para personas de todas las edades, incluidos los jóvenes y las familias que hablan español con las que trabaja Anahuak. Hemos trabajado con TNC durante años para involucrar a los miembros de la comunidad en este proyecto. Este es el primero proyecto de los 100 Acres que empezara construcción y es sumamente importante que se dé prioridad a fondos para este proyecto que será accesible a miles de miembros de la comunidad como la primera fase de la visión de los 100 Acres.

Nuestra comunidad necesita urgentemente proyectos de múltiples beneficios que estén financiados para su mantenimiento. Necesitamos acceso a la naturaleza para nuestra salud física y mental. ¡Nuestra comunidad necesita y quiere que la visión de este proyecto finalmente se convierta en una realidad que podamos disfrutar!

Comments

I request to make a public comment during the meeting in support of the Bowtie Demonstration Project. I request Spanish-language interpretation.

Hello. My name is Raúl Macías and I am the executive director of the Anahuak Youth Sports Association. I have been working with community members from the nearby neighborhoods surrounding the Bowtie Demonstration Project for over 20 years.

I advocate for the full funding request for the operations and maintenance costs generated by The Nature Conservancy for this project.

This project will improve water quality, add trees and provide educational opportunities for people of all ages, including the youth and the families Anahuak works with whom speak Spanish. For years, we have worked with TNC to include the members of the community in this project. This is the first project of the 100 acres and it is important to prioritize funding for this project that will be accessible to thousands of community members as the first phase of the 100 acres vision.

Our community urgently needs multi-benefit projects to be funded for their operations and maintenance. We need access to nature for our physical and mental health. Our community needs and wants this project's vision to finally become a reality we can all enjoy!

Subject: Bowtie - I strongly support TNC's proposal to fund the operations and maintenance of the project.

CAUTION: External Email. Proceed Responsibly.

My name is Marianne and I am a stakeholder on the River Committee for Atwater Village neighborhood council.

I have been living near the Bowtie Demonstration Project since its inception.

I would like to give a public comment in support of complete funding for The Nature Conservancy's funding request for the Project.

I strongly support TNC's proposal to fund the operations and maintenance of the project.

Our community urgently needs multi-benefit projects that are funded for maintenance. Our community needs and wants this project vision to finally become a reality that we can enjoy!

I am most excited about the Bowtie Wetland Demonstration's access to nature and the LA River, support for habitat restoration, access to open space, native vegetation, interpretive elements.

Thank you.

Marianne Bender

Comments

The city of Alhambra's Environmental & Sustainability Commission stresses the importance for the ULAR WASC to consider funding projects for small cities like Alhambra. Smaller cities lack funding and resources for large environmental projects, like Alhambra's Green Street Demonstration Project on Main. This project is the first of its kind for the City and the Environmental Sustainability Commission wholeheartedly supports the project. I urge you for your support as our residents contribute to the Regional Program Funding through their property taxes. It is imperative to support all levels of projects both small and large. Every bit counts. Thank you.
