Public Comment Form

Name:* Maggie Gardner

Organization*: LA Waterkeeper

Email*: maggie@lawaterkeeper.org

Phone*: 310-651-3360

Meeting: Upper Los Angeles River WASC

Date: 1/16/2025

☑ LA County Public Works may contact me for clarification about my comments

*Per Brown Act, completing this information is optional. At a minimum, please include an identifier so that you may be called upon to speak.

Phone participants and the public are encouraged to submit public comments (or a request to make a public comment) to SafeCleanWaterLA@dpw.lacounty.gov. All public comments will become part of the official record.

Please complete this form and email to SafeCleanWaterLA@dpw.lacounty.gov by at least 5:00pm the day prior to the meeting with the following subject line: "Public Comment: [Watershed Area] [Meeting Date]" (ex. "Public Comment: USGR 4/8/20").

Comments

LA Waterkeeper is in support of the scientific study "Quantifying Community Flood Management Benefits of Watershed Scale Stormwater Capture." We have long been interested in what the impact of SCWP projects are on flooding in the region including receiving waters, and how overtime the impact of SCWP projects could potentially enable sections of river channel restoration by sufficiently reducing impervious surface and flood pressure in watersheds. Reduction of flooding is not something that is currently well quantified in the SCWP, so if the study is able to define performance metrics to describe flood related community investment benefits, that would be beneficial to the region. In summary, we are in support of the scientific study "Quantifying Community Flood Management Benefits of Watershed Scale Stormwater Capture".
