Name:* Donald Voss Organization*: Descanso Gardens Foundation * Email*: dvoss818@sbcglobal.net Phone*: 818-621-1449 Meeting: WASC of the ULAR Date: March 5, 2025 Zo LA County Public Works may contact me for clarification about my comments *Per Brown Act, completing this information is optional. At a minimum, please include an identifier so that you may be called upon to speak. Phone participants and the public are encouraged to submit public comments (or a request to make a public comment) to SafeCleanWaterLA@dpw.lacounty.gov. All public comments will become part of the official record. Please complete this form and email to SafeCleanWaterLA@dpw.lacounty.gov by at least 5:00pm the day prior to the meeting with the following subject line: "Public Comment: [Watershed Area] [Meeting Date]" (ex. "Public Comment: USGR 4/8/20"). Comments My comments are made in support of the funding of Descanso Gardens' Stormwater Capture projects, integral components of the Gardens' approved Master Plan. When complete, these several projects will enhance the ecological performance of the Gardens' main water features by optimizing stormwater capture for non-potable use, made possible by a full rehabilitation of Descanso's existing lake. It is estimated that these improvements will substantially reduce the Gardens' reliance upon its local water service provider. Exemplifying smart management of water resources is an important goals of Descanso Gardens, and these Stormwater Capture projects will greatly support the achievement of that goal.

Comments

Hello - I plan to participate in the meeting online, and would like to make a public comment in support of two projects:

1) the La Cañada Town Center Stormwater Infiltration Galleries Feasibility Study

2) the Crescenta Valley Park Stormwater Project Thanks.

Frank Colcord, Friends of Rosemont Preserve

Comments

Thank you.

As a current Boarmember of the Descanso Gardens Foundation and a former Mayof of the city of La Canada Flintridge (home to Descanso Gardens), I urge your approval of additional funding for the Descanso Gardens Stormwater Capture projects, Once completed, these projects will meet 50% of the Gardens' needs for non-potable water -- a significant savings that helps to meet the worthy goals of the ULAR watershed communities. This shovelready project sets a great example for both public and private entities within the region and can be used as a template for how smaller projects can make a difference in their communities. As you know, costs have risen since our first application in 2019, hence the need for this additional funding. The Board is committed to raisiing its matching funding through private conributions and foundation grants. Your support is essential to help us make this a reality.
