

Watershed Planning Update Lower Los Angeles River Watershed Area

PRESENTED BY:

LOS ANGELES COUNTY PUBLIC WORKS
SCW PROGRAM WATERSHED PLANNING TEAM

April - May, 2025

What We're Covering Today

- 1. WASC Engagement Recap
- 2. Key Components of the Initial Watershed Plans
- 3. Initial Watershed Plans Use Cases
- 4. Community Strengths and Needs Assessment (CSNA)
- 5. Updated Adaptive Timeline and Next Steps

HOW WE ARRIVED AT THIS 3RD PHASE OF WATERSHED PLANNING

Phase 1 – Workshop

Reviewed SCW Program Goals and considered any uniqueness about the Watershed Area

Brainstormed strategies that this Watershed Area could prioritize in the coming years to help achieve SCW Program Goals.

Phase 2 - Check In

Reviewed and received feedback about how the Watershed Planning effort had incorporated Session 1 information.

Explained Target Setting, Baseline Analysis, and Needs Identification methods

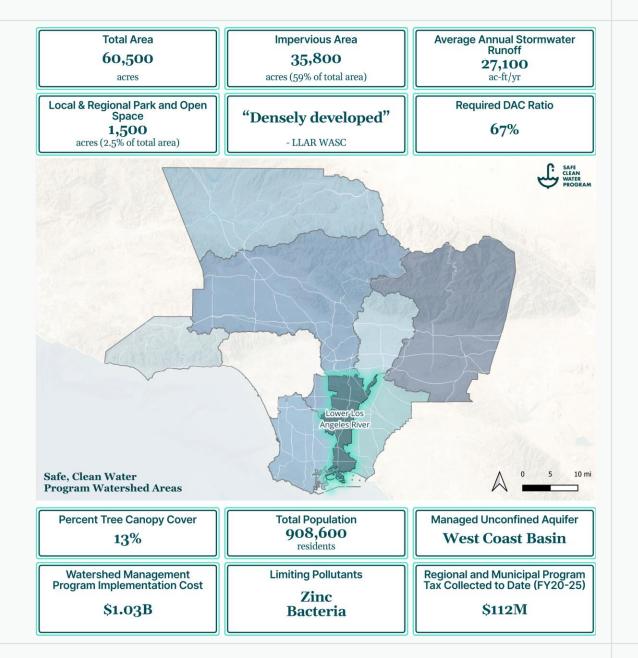

Previewed the Watershed Plans, Planning Tools, and the Community Strengths and Needs Assessment

Lower Los Angeles River Watershed Area Characteristics

Each WA has unique characteristics which will be highlighted in each specific Initial Watershed Plan

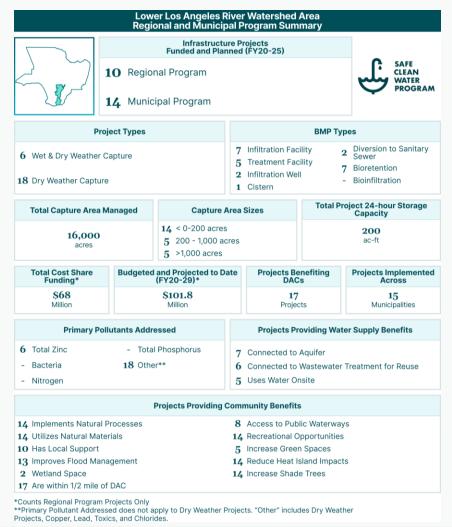

The Watershed Planning effort builds upon past work including the Metrics & Monitoring Study

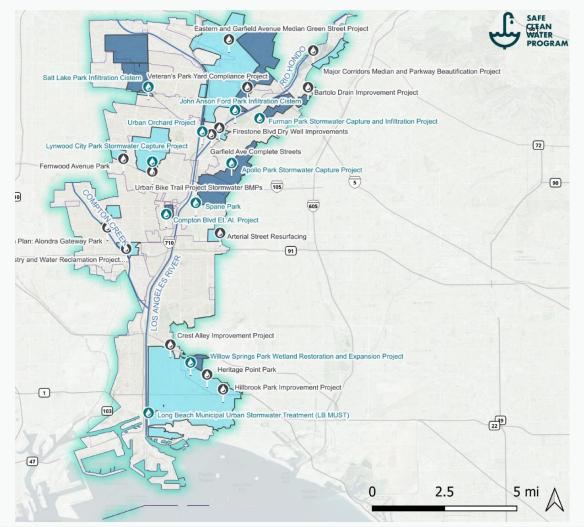

LLAR Watershed Area Baselines

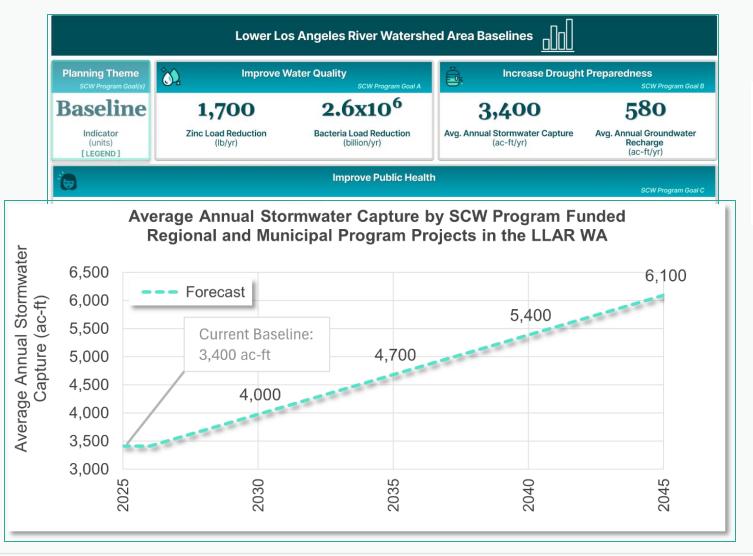

Summarize investments to date by SCW Program funded projects from both the Regional and Municipal Programs

Forecasts

Benefit baselines and forecasts support development of Targets, identify Watershed Area Needs, and communicate progress

NOTE: LLAR Example

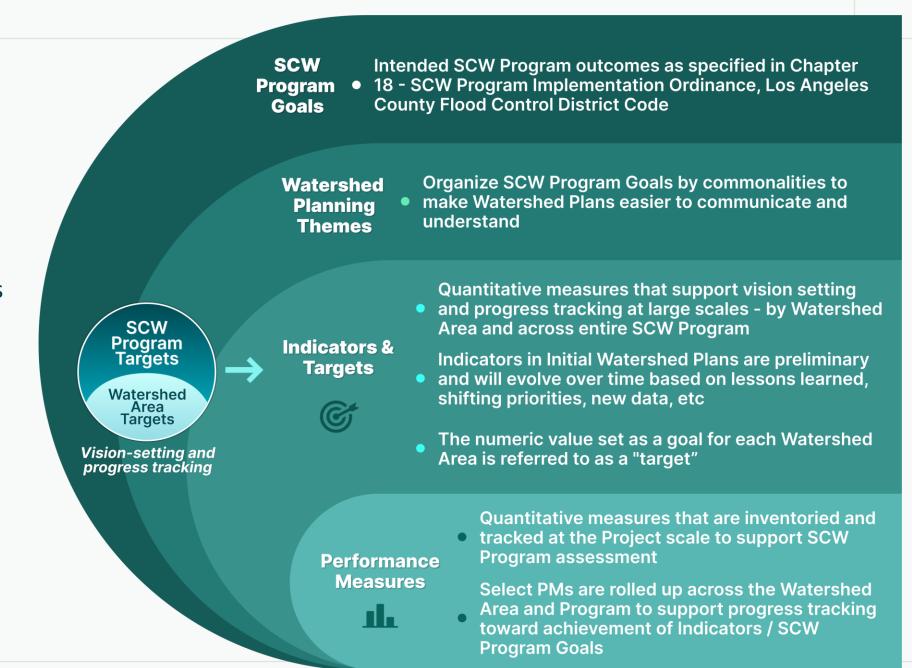

4/22/25 6

Targets & Performance Measures

Targets used for WA-scale vision setting and progress tracking

Performance measures track the program at the project-level

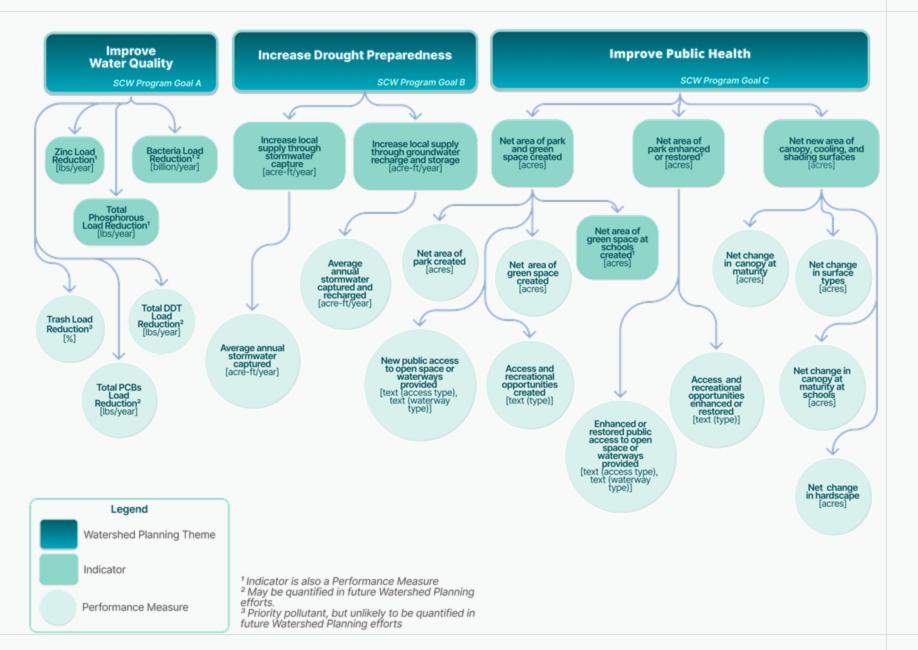

Planning Themes

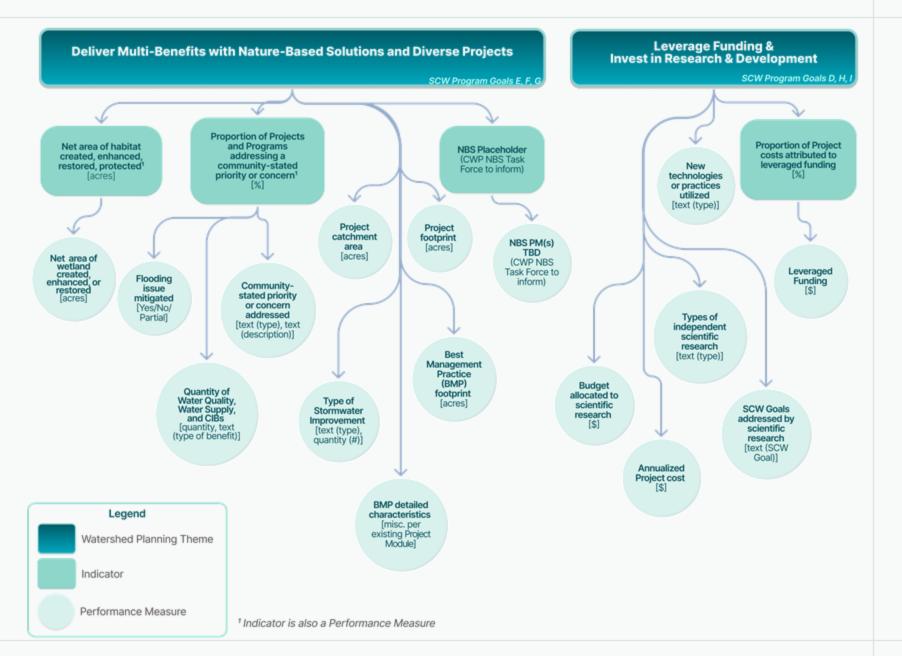

Planning Themes

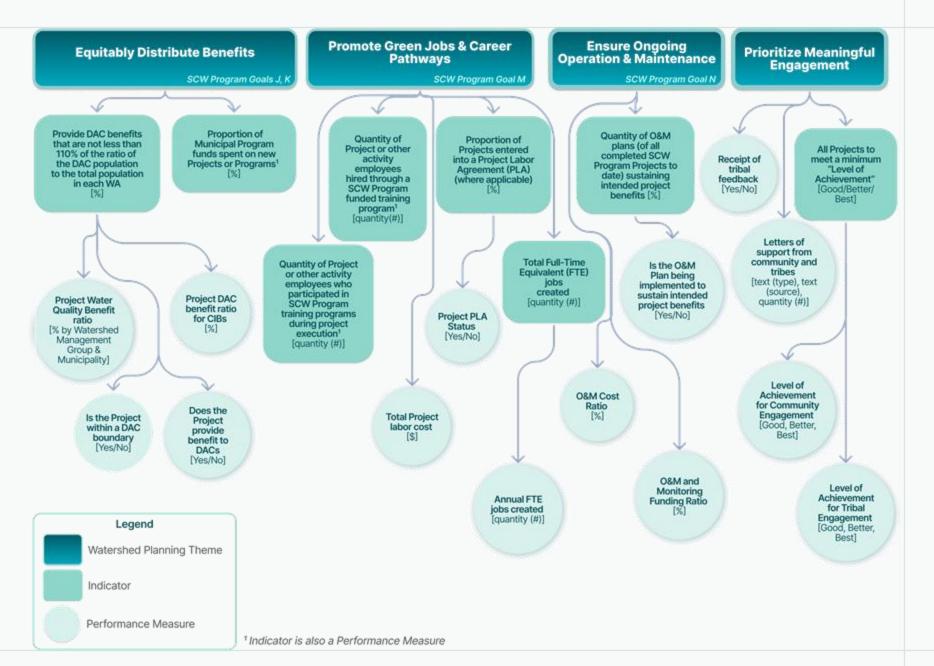

Planning Themes

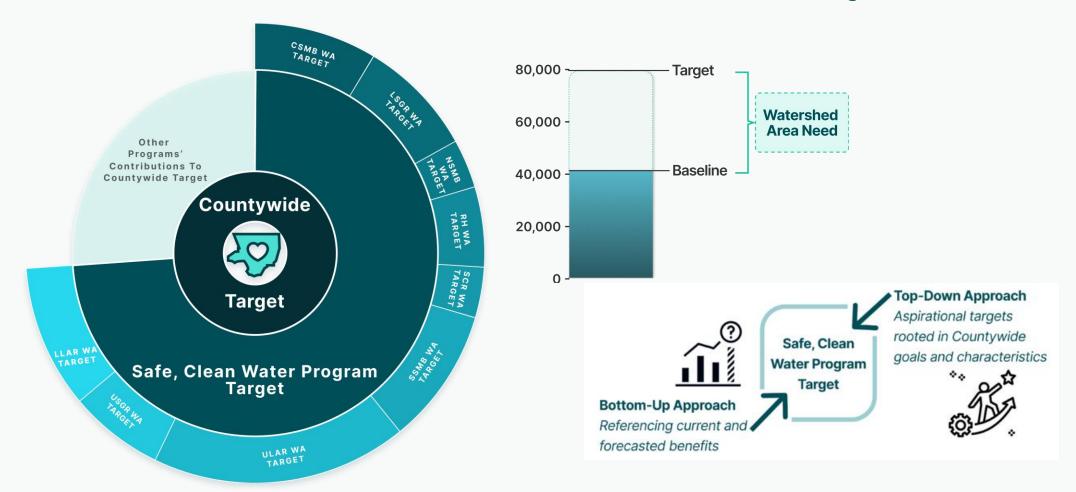

Targets and Watershed Area Needs

Targets are anchored in Countywide goals, when available.

The needs of each WA are calculated as the difference between baselines and targets.

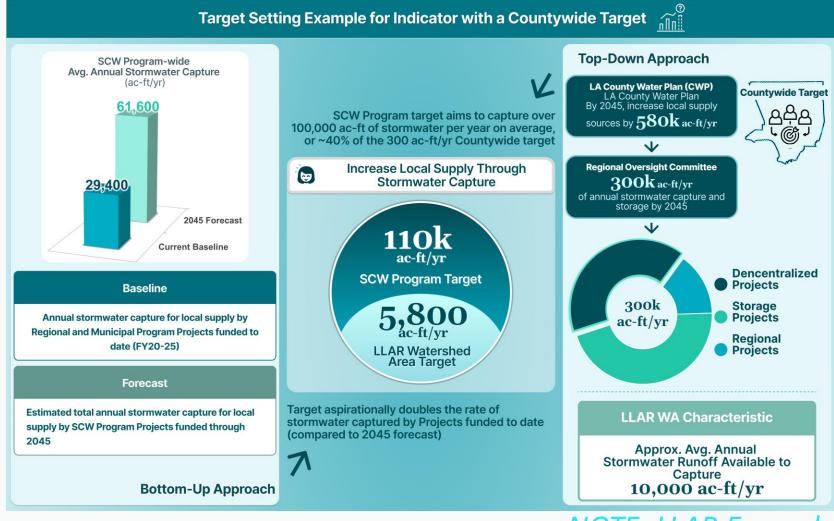

Watershed Area Targets Example – w/ Countywide Target

Target aims to substantially contribute to the Countywide stormwater capture for local supply target of 300k ac-ft/yr

WA targets aim to accelerate progress by Projects funded to date and consider WA characteristics to determine each WA's contribution

NOTE: LLAR Example

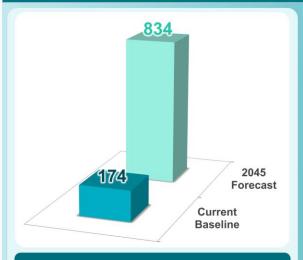

Watershed Area Targets Example – w/o Countywide Target

Target Setting Example for Indicator without a Countywide Target

WA targets aim to accelerate progress by Projects funded to date and consider WA characteristics to determine each WA's contribution

Baseline

Park Enhanced or Restored by Regional and Municipal Program Projects Funded to Date (FY20-25)

Forecast

Estimate of Potential Benefits by SCW Program Funded Projects

Bottom-Up Approach

Net Area of Park Enhanced or Restored

Target aspirationally increases the rate of park space enhanced or restored by ~150% (compared to 2045 forecast)

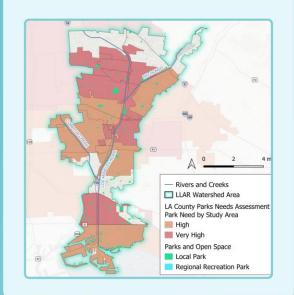

ス

Top-Down Approach

LLAR WA Characteristic

Total Area of Existing Local and Regional Parks by Need Category High - 370 acres Very High - 450 acres

Total - 820 acres

NOTE: LLAR Example

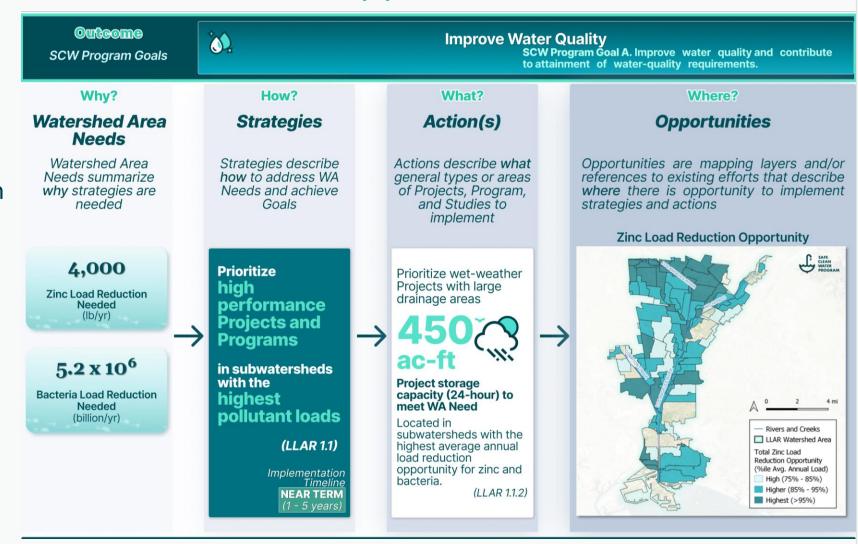

LLAR WA – Needs to Opportunities

Strategies are outlined for addressing WA Needs, with an emphasis on achieving multiple benefits.

Actions provide specifics on the types of projects or programs that would support strategy implementation.

Opportunities are outlined to show where and how actions could be implemented to maximize return on investment.

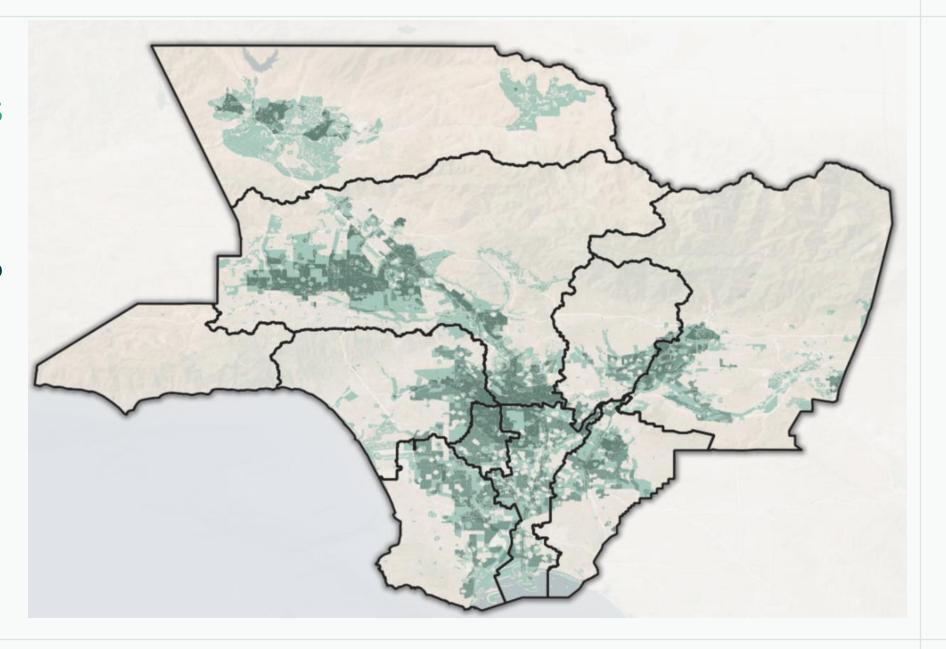

NOTE: LLAR Example

Multi-benefit Opportunities

A composite opportunity layer will highlight areas with the most potential to address multiple benefits

Initial Watershed Plan and Planning Tool Use Cases

Planning Document and Living tool to facilitate decision making

Recurring updates will ensure best available data are continually used.

📄 Initial Watershed Plan

- Understand how Projects and Programs can contribute to Watershed Area (WA) Needs and strategies.
- Align Project and Program implementation with strategies and opportunities in the WA.

- Access comprehensive assessments of WA baselines and targets.
- Communicate priorities and strategies to Project and Program proponents, Municipalities and community members.
- Understand methods, definitions, data sources, and limitations behind targets and strategies.
- Understand near and longterm next steps for Watershed Planning.

- Learn about SCW Program Watershed Planning, characteristics of their WA, and the benefits provided by SCW Program funded Projects within their community.
- Learn about targets and strategies specific to their WA to understand the vision for future Projects and Programs.

Project and Program Proponents

WASCs, ROC, Municipalities, and the District

Community Members

- Use Opportunity layers to understand which benefits their Project or Program could provide to contribute to WA Goals and strategies.
- Review and understand how Projects and Programs can align with strategies.
- Visualize the distribution of existing Projects and their footprints and capture areas to avoid overlap and maximize benefits provided by new investments.
- Understand impacts of funding decisions on progress toward achieving Goals.
- Evaluate whether capture areas or benefits for Projects under consideration for funding overlap with previously-funded Projects.
- Consider how Projects and Programs align with strategies when making funding decisions.

- Track progress toward achieving WA targets and SCW Program Goals.
- View funded and under consideration Projects and Programs in their community and the specific benefits they provide.

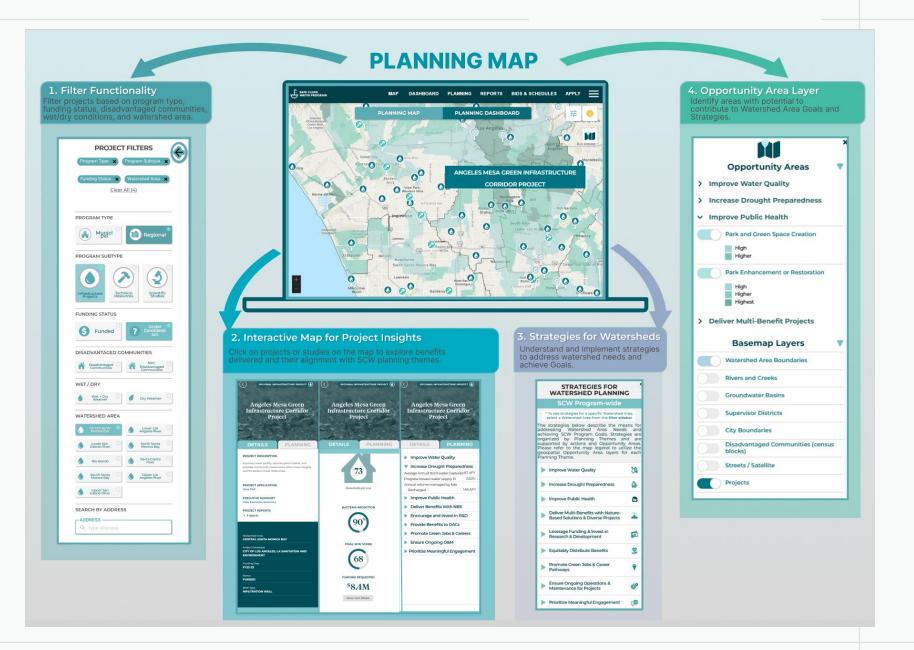

Watershed Planning Tool

Watershed Area Planning Tool:

DEMO OF EARLY PROTOTYPE

17

How do you think these plans and tools will be useful to the watershed area, and the steering committee?

Community Strengths and Needs Assessment (CSNA)

LA County Safe, Clean Water Program

Community Strengths & Needs Assessment Survey

The Safe, Clean Water Program wants YOUR INPUT about the things you like, and the things you would like to change, in your community.

Your response is completely anonymous.

This questionnaire will take approximately 5 minutes to complete and may be completed at your own pace.

All questions require a response except where noted as "optional."

To view the survey in another language, click **English-US** at the top of the page and select your preferred language.

1. Think of one area of LA County that you know best. This could be the area where you live, work, study, or otherwise spend time.

What is the name of this community?*

This can be a city (such as "Alhambra" or "Carson") or a neighborhood (such as "Boyle Heights" or "North Long Beach"). Please be as specific as possible.

Click on the map to drop a pin or type in an address in the search bar to find that location.

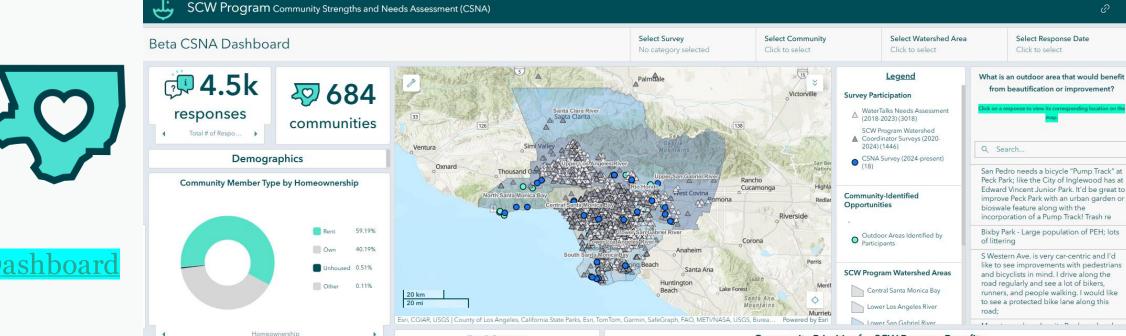

CSNA Dashboard

To the right, you'll see how community members

prioritize the types of benefits the Safe, Clean Water Program can fund. Each benefit is marked as low.

medium, or high priority according to survey results.

CSNA: OUTREACH MESSAGING

LA County Public Works created a Community Strengths and Needs Assessment so that community members have a quick and easy way to share their knowledge with the people who are making decisions about what benefits projects should prioritize and what infrastructure projects to fund.

- You are an expert about your neighborhood.
- This Assessment is made possible by the Safe Clean Water Program, created by voters in LA County in 2018, to enhance our local water supply, clean our water and benefit our communities.

Participating is simple.

 The questionnaire has 11 questions, and some of them are optional, but we hope you can answer them all. It takes most people 3 to 5 minutes to complete.

For digital responses:

 Just hit the "submit" button once you've answered the questions you want to answer.

For paper responses:

 Try to write your answers as legibly as possible so that we can correctly record your responses.

CSNA: REPORTING

Watershed Coordinators and Regional Coordination

Will develop templates and guidance

Annual summary presentations about the activity and results of the CSNA

Summarizing insights from the Dashboard for WASCs during WC updates

Strategic Outreach & Engagement Plans, and Annual Reports

Metrics from surveys

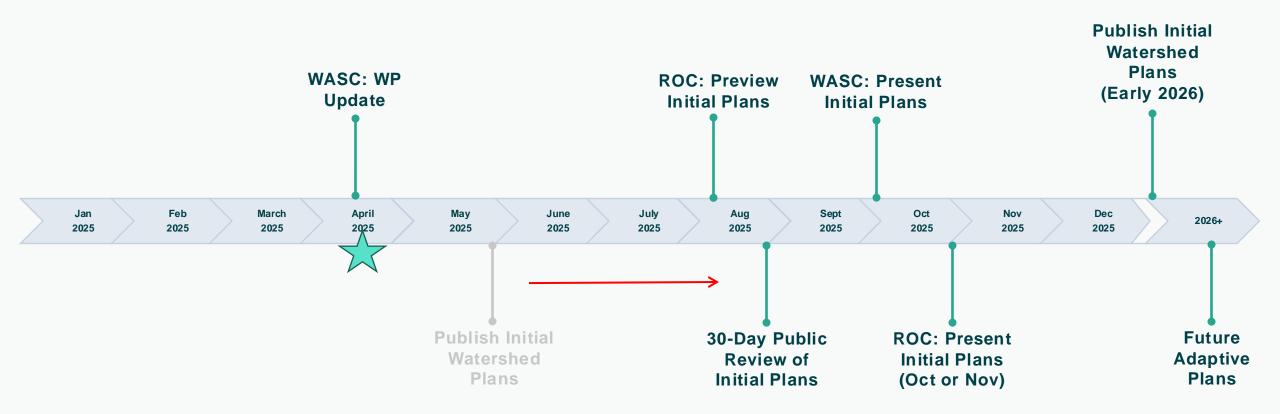

Summaries of community input

Q&A about CSNA

Tentative SCWP Watershed Planning Timeline

Thank you
