

FUNDING REPORT

Quarter 2 – November 2025

Leveraged funding is a key program goal in the Safe, Clean Water (SCW) Program Implementation Ordinance (Chapter 18.04). Watershed Coordinators play a supporting role in “identify[ing] potential partners and additional sources of funding to augment and leverage SCW Program revenues” for Safe, Clean Water Regional Program projects (Chapter 18.07). This funding report provides a landscape overview of recent funding policy highlights and shares currently active and upcoming funding opportunities that may be relevant to Safe, Clean Water Program infrastructure projects.

For more information, please contact SafeCleanWaterLA@pw.lacounty.gov

POLICY HIGHLIGHTS

State Highlights

The California Climate Bond lays out \$10 billion to enhance the state’s climate resilience. Under the California Fiscal Year (2025-26) Budget, \$3.3 billion has been appropriated, \$1.2 billion of which has been allocated for water quality projects or programs.

Bond funds will be used for state-managed projects, local assistance grant programs, and [approximately 119 directed programs](#). The California Natural Resources Agency (CNRA) has compiled an [Implementation Guide](#) for state agencies administering local assistance grants to satisfy bond requirements and recommend best practices.

These programs are currently preparing guidelines to help address bond language that “at least 40 percent of the total funds available...shall be allocated for projects that provide meaningful and direct benefits to vulnerable populations or disadvantaged communities” and “at least 10 percent of the total funds...shall be allocated for projects that provide meaningful and direct benefits to severely disadvantaged communities” ([California Climate Bond, Section 90140](#)). Members of the public are encouraged to provide public comment as draft guidelines are released. Final solicitations will be posted on the [California Grants Portal](#) when available.

Federal Highlights

As of November 6, 2025, the federal government has been shut down since October 1, 2025. The lapse in appropriations has impacted federal government staffing and capacity and state programs that receive federal funding. The last government shutdown occurred in December 2018 to January 2019, lasting about four weeks. The [non-partisan Congressional Budget Office reported](#) that the 2019 shutdown resulted in reduced economic activity, and many government agencies stalled grant awards and disbursements due to lack of funding. Information on services funded by the federal government, such as the [Federal Grants Portal](#), may also be out-of-date or delayed. As indicated on the Federal Grants Portal, the website system “will accept and store applications until such time as the responsible agency has the authority and funding to return to normal business operations.”

ACTIVE & UPCOMING FUNDING OPPORTUNITES

The programs highlighted below are funding opportunities that may be the most relevant to Safe, Clean Water Program projects. As of November 6, 2025, these programs are currently open and accepting applications or are forecasted to open. See the attached funding matrix for a more extensive list of relevant funding opportunities.

[California Department of Transportation’s Sustainable Communities Grant](#) funds local and regional multimodal transportation and land use planning projects that further the region’s Regional Transportation Sustainable Communities Strategy (RTP SCS) or Alternative Planning Strategy (APS) where applicable, to contribute to the State’s greenhouse gas reduction targets, and assist in achieving the California Department of Transportation’s (Caltrans) mission and Grant Program objectives. Applications are due **November 21, 2025**. Projects must have a transportation nexus and can connect to aspects such as implementation projects for active transportation, climate change, corridor and freight, social equity,

FUNDING REPORT

Quarter 2 – November 2025

integrated housing, land use, and transportation, multimodal, safety, and transit. Eligible primary applicants must have statutory authority to conduct transportation/transit planning for their jurisdiction (e.g., metropolitan planning organizations with sub-applicants, regional transportation planning agencies, transit agencies, cities and counties with compliant housing elements and completed annual progress reports, Native American Tribal governments, and other public transportation planning entities).

The grant minimum is \$500,000 for under-resourced communities and \$100,000 for all other communities. The grant maximum is \$700,000 for all communities. A local cost-share requirement of at least 11.7% is required and is waived for Native American Tribal Governments.

California Coastal Commission's WHALE TAIL® Grant funds education and engagement projects to help people connect to the California coast and its watersheds through experiential education, stewardship, and outdoor experiences. WHALE TAIL® Grants focus on reaching communities that have historically received fewer marine education and stewardship opportunities, and strive for a broad geographic distribution throughout California. Applications are due **December 15, 2025**. Projects must engage communities in California and include education about coastal and marine environments. This may include classroom-based programs, field trips, climate change education and stewardship, coastal habitat restoration or shoreline cleanup programs with community involvement, community or participatory science, cultural and ancestral practice preservation, workforce development, and much more. Projects must begin between May 15 and October 1, 2026.

The Coastal Commission strongly encourages projects engaging communities that face barriers accessing coastal and marine education and stewardship. The Coastal Commission is looking for applicant organizations based in, and composed of, the communities they are engaging. Eligible applicants include individuals, non-profit organizations, public agencies, and Tribal Governments.

California Department of Toxic Substances Control's Brownfields Revolving Loan Fund (RLF) Grant Program provides grants for two types of brownfield sites: hazardous substance release sites and petroleum sites. Grantees may also use funds for pre-cleanup site assessments and for environmental cleanup. Eligible applicants include local governments, Tribal entities, and nonprofits, and developers not liable under Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) Section 107. The program has an **ongoing, rolling application period**. More information can be found by scheduling a meeting with the Program Manager to discuss eligibility.

San Gabriel and Lower Los Angeles Rivers & Mountains Conservancy Consolidated Grant Program includes a single grant application for multiple funding sources, including non-bond priorities grant programs and Proposition 1, 68, and 4 funds. A full listing of funding sources and amounts is published on the Local Assistance and Support Budget report on the [RMC Board Meetings page of the website](#), updated at each meeting. Applicants do not need to specify which funding source they are applying to. Once an application is submitted, RMC staff will determine the most appropriate funding source(s) based on project's alignment with funding sources and duration of the project. This program has an **ongoing, rolling application period**.

Eligible applicants include State and Federal agencies, Tribal entities recognized by the US Federal Register or as a California Native American tribe, local public agencies (including water districts and school districts), local conservation corps, nonprofit organizations, and Joint Powers Authorities. Eligible projects including planning, implementation, acquisition, and technical assistance.

Caltrans' Stormwater Treatment Partnership Programs provide funding to stormwater projects that improve regional water quality and facilitate partnerships with municipalities to achieve compliance with Caltrans' National Pollutant Discharge Elimination System (NPDES) permit. There are two partnership programs, the Cooperative Implementation Agreements (CIA) Program and the Financial Contribution Only (FCO) Program. Both programs are **ongoing**, and annual funds are determined in March of each fiscal year based on Caltrans' Stormwater operating expenses. Projects that are not awarded funding in the

FUNDING REPORT

Quarter 2 – November 2025

current round remain eligible for funding in future rounds. For more information, please contact Los Angeles County Caltrans Stormwater Coordinator [Anand Maganti](#).

California Wildlife Conservation Board General Grants funds planning, implementation, acquisition, technical assistance, and scientific study projects that provide one or more of the following benefits: 1) Protect or enhance biodiversity; 2) Climate change resiliency and connectivity; 3) Support State Wildlife Action Plan priority habitats; 4) Conserve or enhance working landscapes; 5) Conserve or enhance water-related projects; and 6) Enhance public access. The **application cycle is continuous**, and it is recommended that applicants first consult Wildlife Conservation Board (WCB) staff prior to completing a Pre-Application. Award amounts vary based on current available funds and the application pool. Funding amounts are determined by the WCB voting board and grants manager. There is no cost-share requirement.

California State Water Resources Control Board's Clean Water State Revolving Fund (CWSRF) offers low-cost financing for a wide variety of wastewater and water quality projects, including funding for water reuse and stormwater projects. Financing is offered through low-interest loans at half the general obligation bond rate. Stormwater mitigation projects are also eligible for loan forgiveness. California's CWSRF receives annual funds from principal and interest on past loans, federal allocations, periodic allocations to the State Water Board from the California annual budget, and other funds approved by California voters such as Propositions 1, 68, and 4. The California CWSRF offers an average of \$940 million in financing annually. Section 91011 of Proposition 4 allocated \$610 million in grants or loans that improve water quality or help provide clean, safe, and reliable drinking water.

Applications are accepted on a **rolling basis and are reviewed at the end of the calendar year**. Projects in small (defined as less than 20,000 people) and/or disadvantaged communities are prioritized for grant funding and principal loan forgiveness. Specific funding percentages and caps change by the year but are developed annually through a stakeholder-driven process and released in that year's [Intended Use Plan](#). Some public entities are unable to apply for the CWSRF financing due to conflicting requirements with existing debt.

SAFE, CLEAN WATER PROGRAM FUNDING HIGHLIGHT

Round 7 Infrastructure Program Projects Funding Assessments

Funding Assessments are being prepared by the Regional Coordination Team for all Round 7 (FY 26-27) SCW Regional Program Infrastructure Program projects the Scoring Committee confirms are eligible. Funding Assessments will be transmitted to the Watershed Area Steering Committee (WASC) alongside the Scoring Committee's review of projects to be used as a resource as WASCs develop their Stormwater Investment Plans. Funding Assessments will be posted on the Safe, Clean Water Program website under the respective WASC page.

Funding programs change frequently. The identified funding opportunities compiled are a list of potentially relevant opportunities, updated as of November 6, 2025. Further research should verify project-specific eligibility requirements, latest funding levels, and appropriate timelines. Use the links attached to research these programs further. If you are unsure about your project eligibility or competitiveness, reaching out to program coordinators via contact emails or webinars is a good way to get your questions answered. Safe, Clean Water Program Watershed Coordinators can also support leveraged funding efforts. The [Federal Grants Portal](#), [California Grants Portal](#) and [CFCC Funding Fairs](#) can serve as additional resources to identify funding opportunities.

Safe, Clean Water Program - Funding Matrix

02/2026 - November 2025 Update

Program	Theme	Status	Geography	Agency/Organization	Purpose / Goals	Eligible Applicants	Eligible Use of Funds	Project Type	Match/Cost Share Requirement	Funding Terms	Timing and Recurrence
<i>Name of Program</i>	<i>Topic Area(s) of focus</i>	<i>Active or Upcoming?</i>	<i>National, State, Regional</i>	<i>Name of Agency/Organization</i>	<i>Program Purpose / Goals</i>	<i>Eligible Applicant Types</i>	<i>Eligible Use and Eligible Projects</i>	<i>Project phase</i>	<i>Yes/No</i>	<i>Min. & Max. Award Amount and Other Considerations</i>	<i>Frequency and Cycles</i>
Sustainable Transportation Planning Grants - Sustainable Communities Grant	Transportation, Community Sustainability / Infrastructure	Active	State	Caltrans	The purpose of the Sustainable Communities grants is to fund local and regional multimodal transportation and land use planning projects that further the region's Regional Transportation Sustainable Communities Strategy/Alternative Planning Strategy (where applicable), contribute to the State's greenhouse gas reduction targets, and assist in achieving the Caltrans Mission and Grant Program Objectives, which must be considered when preparing the grant application.	Primary applicants must have statutory authority to conduct transportation/transit planning for their jurisdiction (e.g., Metropolitan Planning Organizations with sub-applicants, Regional Transportation Planning Agencies, Transit Agencies, Cities and Counties with compliant Housing Elements and completed Annual Progress Reports, Native American Tribal Governments, Other Public Transportation Planning Entities). These agencies may include a sub-applicant (e.g., MPOs, RTPAs, Transit Agencies, Universities and Community Colleges, Native American Tribal Governments, Cities and Counties with compliant Housing Elements and completed APNs, Community-based organizations, non-profit organizations).	Projects can address aspects of active transportation, climate change, corridor and freight, social equity, integrated housing, land use, and transportation, multimodal, safety, and transit. Projects must have a transportation nexus.	Implementation	Yes, 11.47% minimum, not required for Native American Tribal Governments	Minimum: \$50K for Under-Resourced Communities, including Native American Tribal Governments and rural communities; \$100K for all others Maximum: \$300K At least 50% of grants should benefit Under-Resourced Communities	Applications due November 22, 2025.
WHALE TAIL* Grants	Habitat Restoration / Conservation, Parks / Green Space / Recreation, Education	Active	State	Coastal Commission / Ocean Protection Council	WHALE TAIL* Grants help people connect to the California coast and its watersheds through experiential education, stewardship, and outdoor experiences. WHALE TAIL* Grants focus on reaching communities that have historically received fewer marine education and stewardship opportunities, and strive for a broad geographic distribution throughout California.	Individual, Nonprofit, Public Agency, Tribal Government.	Projects must engage communities in California and include education about coastal and marine environments. This may include classroom-based programs, field trips, climate change education and stewardship, coastal habitat restoration or shoreline cleanup programs with community involvement, community or participatory science, cultural and ancestral practice preservation, workforce development, and much more. The Coastal Commission strongly encourages projects engaging communities that face barriers accessing coastal and marine education and stewardship. The Coastal Commission is looking for applicant organizations based in and composed of the communities they are engaging. Projects must begin between May 11 and October 1, 2026.	Education / Engagement	Not specified.	Maximum \$50,000, no minimum. Approximately half of total grant funds (\$1,000,000) will be set aside for projects led by California Native American tribes, Tribally-led entities, and organizations directly engaging California Native American Tribal communities. At least 25% of projects funded outside of the tribal set-aside will be small grants up to \$25,000.	Applications due December 15, 2025. This grant cycle partners with the California Ocean Protection Council, who is providing \$2,000,000 in funds from California Climate Investments for this cycle.
County Priority Projects Program - Measure A Annual Allocation Grant Program	Parks / Green Space / Recreation	Active	Regional	Los Angeles County Regional Parks Open Space District	County Priority Projects grants will fund projects that are determined to be priorities by the Board of Supervisors (BOS).	Applicants must provide proof that the project meets all the following Project Eligibility requirements to apply for a grant award: • The project is a capital project or the planning and design for a capital project; and, • The project is consistent with the most recent PNA, UPNA, or another adopted park planning tool. Applicant should submit a 2-page Letter of Intent (LOI) to the Office of the District Supervisor of the project location to determine priority level and funding eligibility.	Below is a non-exhaustive list of projects that may be eligible for grant funds under the County Priority Projects program. This list is intended to assist the BOS in understanding the types of projects on which County Priority Projects Program funds can be expended, not to limit or direct projects chosen for completion. • Community and local parks, including pocket parks, playgrounds, playground equipment, dog parks, and picnic areas, especially those that connect and restore underutilized spaces; • Community and senior recreational centers; • Park safety, graffiti removal, facility safety lighting, safe routes to schools, and other safety improvements; • Greenpace and greenway development; • Gardens; • Urban canopy development to reduce the heat island effect, especially in heavily urbanized, tree-poor areas of the County; • Refurbishment, updating, or expansion of current parks and park amenities; and • Planning and design related projects. Eligible uses include annual maintenance costs such as recurring labor, contracts, services, and supplies necessary to preserve and extend the longevity, accessibility, and usability of grant-funded improvements.	Planning / Implementation	Not specified.	Granted on a request basis. LOIs evaluated on a rolling basis by each Supervisor's Office and may or may not be recommended for funding.	Up to two percent of annual Measure A revenue is allocated to this program. Available funding for each of the five Supervisorial Districts will be declared by September 15th of every year. This includes new and un-awarded funding from prior years.
Maintenance & Servicing Program - Annual Allocation Grant Program	Parks / Green Space / Recreation	Active	Regional	Los Angeles County Regional Parks Open Space District	Funds designed to support RPOSD-funded capital outlay projects that are maintained and operated in perpetuity per grant agreement. This program is administered separately from RPOSD's other grant programs. The program is meant to offset increased maintenance costs resulting from Proposition A-funded projects.	Projects that received RPOSD grant funds under Proposition A. Eligible grantees include public agencies, LA County Department of Beaches and Harbors, LA County Department of Parks and Recreation, LA County Department of Public Works, Joint Powers Authorities, and non-profit organizations. M&S cannot be used for a project that did not receive RPOSD funding.	Eligible uses include annual maintenance costs such as recurring labor, contracts, services, and supplies necessary to preserve and extend the longevity, accessibility, and usability of grant-funded improvements.	Operations & Maintenance	Not required.	Dependent on annual allocations	Maintenance & Servicing Funds are allocated annually. Annual allocation amounts are based on revenue received by September 15th of each year.
Coastal Conservancy Grants	Habitat Restoration / Conservation, Hazard Mitigation / Resilience	Active	State	State Coastal Conservancy	The Coastal Conservancy funds a wide variety of projects along the California coast, San Francisco Bay, and in coastal watersheds to increase the availability of beaches, parks and trails for the public, to protect and restore natural lands and wildlife habitat, to preserve working lands, and to increase community resilience to the impacts of climate change. Multi-benefit projects, projects that serve disadvantaged communities, and projects that advance the objectives in the Conservancy's 2023 – 2027 Strategic Plan and regional and statewide plans will receive higher priority for funding.	Public agencies, including Joint Powers Authorities and Federally-Recognized Indian Tribes, are eligible. Nonprofit organizations with 501(c)(3) status are eligible. Other community-based organizations and non-federally-recognized tribes may apply with a 501(c)(3) fiscal sponsor.	Projects that benefit public access, natural resources, working lands, and climate resilience at the coast, coastal watersheds, and the San Francisco Bay are eligible. The Conservancy will fund most stages of a project, including pre-project feasibility studies, property acquisition, project planning, including community involvement; design; environmental review; permitting; construction; and project-related monitoring.	Acquisition / Planning / Implementation	Not specified.	There are no maximum or minimum grant amounts for this funding; however, it is anticipated that most grant will be between \$200K and \$5M. Rolling pre-application solicitation for most Conservancy grants , including Climate Ready, Wildlife Resilience, and all regional grant programs. The Conservancy also holds periodic grant rounds related to specific programs or funding sources. Information on those grant rounds and their deadlines are posted on the program website and emailed to the listserve when they are open. All applicants are encouraged to request a technical assistance consultation with the Regional Manager covering your project area to discuss project eligibility before beginning the application process.	Receives annual appropriations through the Coastal Conservancy's budget cycle. Also channels increased State investments in Coastal Conservancy appropriated through the Budget Acts. \$948.5M allocated to the Coastal Conservancy through the Climate Bond over multiple years.
Wetlands and Mountain Meadows Restoration – Nature Based Solutions	Parks / Green Space / Recreation, Habitat Restoration / Conservation	Active	State	CA Department of Fish and Wildlife (CDFW)	Governor Gavin Newsom's 2020 Executive Order N-82-20 outlines a comprehensive and results-oriented agenda to expand nature-based solutions across California, advancing an approach to restoration that works with and enhances nature to help address societal challenges. Two new programs within CDFW will work toward this goal: Wetlands and Mountain Meadows Restoration and Wildlife Corridor programs.	Public agencies, Tribal governments, Non-profits	All projects shall provide one or more of the following benefits: - Protect or enhance biodiversity; - Climate change resilience and connectivity; - Support of the State Wildlife Action Plan priority habitats; - Conserve or enhance working landscapes; - Conserve or enhance water-related projects; and / or - Enhance public access. Projects should also contribute the State's priorities, such as the Pathways to \$030.	Planning / Implementation / Acquisition / Monitoring / Scientific Studies / Capacity Building / Technical Assistance	Not required.	Not specified.	Ongoing, rolling application. Senate Bill 155 amended the Budget Act of 2021 to provide the allocation of up to \$14M to Nature-Based Solutions (NBS) set aside in Fiscal Years 2022-23 and 2023-24 for projects that restore or enhance wetlands and watershed ecosystems and provide co-benefits, consistent with the Natural and Working Lands Climate Smart Strategy and Pathways to \$0x30. The Program will also support pilot projects for CDFW's Beaver Program.
CA Clean Water State Revolving Fund (SRF)	Wastewater / Clean Water	Active	State	CA State Water Resources Control Board	Financing is offered through low-interest loans. Disadvantaged communities have the ability to apply for principal forgiveness (PF). The Clean Water SRF acts as an infrastructure bank, receiving annual capitalization grants from the EPA and state funds through annual budgets, state ballot measures, and a variety of other avenues. The federal CWSRF has offered over \$150 billion in financing since 1988. The federal SRF funds are administered through state-level SRF funds, including California's DW and CWSRF, which are authorized under California Water Code Sections 13475-13485. The CA CWSRF receives annual funds from principal and interest on past loans, federal allocations, periodic allocations to the State Water Board from the California annual budget, and other funds approved by California voters, such as Proposition 1 and Proposition 68. Applications are accepted on a rolling basis and prioritize disadvantaged communities. Specific funding percentages and caps change by the year but are developed annually through a stakeholder-driven process and released in that year's intended Use Plan (IUP). Financing is for a wide variety of water quality projects.	Public agencies, Tribal governments, Non-profits	The CWSRF can finance publicly-owned treatment facilities, nonpoint source projects, and estuary projects. The most common types of application received are for wastewater treatment plants and sewer systems. The most successfully funded types of projects (organized by category and ranked in order of most to least funded during the 2021-2022 FY as an example) include: secondary treatment, advanced treatment, new interceptors, water reuser, sewer system rehab, and energy efficiency. Applications can be submitted for different types of projects: (a) Water / Energy Audit (focused on driving water efficiency), (b) Construction (for projects that restore or maintain water quality), and (c) for Planning / Design (focused on wastewater systems). Can also apply to these through CA state grants.	Infrastructure and Non-Infrastructure Projects	Not required.	\$1M to ~\$100M No maximum funding limit, but partial funding may be applied in annual CWSRF intended Use Plan. Financing is offered through low-interest loans (at half the general obligation bond rate). Grants and PF may be available to small communities and disadvantaged communities.	Funding is available annually. Applications are accepted on a rolling basis and reviewed at the end of each calendar year.

Addressing Climate Impacts	Habitat Restoration / Conservation / Climate Resilience	Active	State	CA Department of Fish & Wildlife	For projects that address urgent degrading water and habitat conditions due to climate change	Nonprofit, public agency, Tribal Government	Includes: purchasing water from willing sellers for wildlife benefit, protecting instream flows, building water conservation projects, implementing emergency restoration activities, conservation strategies.	Acquisition, Implementation, Infrastructure & non-infrastructure projects	Not required.	Reimbursement funding method. Total funding available is \$50M. Period of performance extends through March 15, 2026.	Ongoing, rolling application. Awarded as often as monthly.
Small Community Clean Water / Wastewater Funding (Grant or Loan)	Clean Water, Water Quality	Active	State	CA State Water Resources Control Board	Provides low interest loans, grants, and principal forgiveness to small disadvantaged communities for planning / design and construction of projects that restore and maintain water quality.	Nonprofit, public agency, and Tribal Government. Must serve small communities qualifying as DAC or SDAC. Small communities = population less than 20,000. DAC = communities with median household income less than 80% of average statewide. SDAC median household income is less than 60% of average statewide.	Focus is on water treatment solutions that ensure safe, clean, affordable, and reliable drinking water and wastewater services.	Planning, Construction	Not required.	Period of performance is 3-5 years.	Ongoing, rolling application. Program has a total of \$110M available. Funding source is the CWSRF; funding is carried out as a reimbursement.
Proposition 1 Watershed Restoration Grant Program	Habitat Restoration / Conservation / Water Quality	Active	State	CA Department of Fish and Wildlife	Funds multi-benefit ecosystem and watershed protection / restoration projects.	Nonprofit, public agency, Tribal Government	Projects must be consistent with the purposes of Proposition 1 and contribute to the implementation of the California Water Action Plan. Proposals must address at least one of the following priorities: large-scale wildlife recovery response and prevention; headwater management for multiple benefits; protect and restore native fish habitat/coastal wetland ecosystem	Planning, Implementation, Acquisition	Not required.	Period of performance is 3 years.	Application deadline is ongoing with anticipated award announcement in the Summer 2024. There are about \$19M in funds available.
Infrastructure State Revolving Fund Program (ISRF)	Community Sustainability / Infrastructure	Active	State	Infrastructure and Economic Development Bank	Low-cost, direct loans to governments and nonprofits sponsored by public agencies for infrastructure and economic projects that improve and sustain communities.	Municipalities and any subdivision of local government; special districts; public benefit, tax-exempt nonprofits	Eligible projects include, but are not limited to: water and wastewater treatment plant upgrades or construction; street repair and upgrades; drainage; flood control; water supply; parks & recreational facilities; environmental mitigation measures; educational facilities; sewage collection & treatment; water distribution.	Acquisition, Construction, Equipment & Machinery, Planning	Not required.	Amounts of funding range from \$1M to \$65M with loan terms for useful life of project up to 30 years. ISRF uses a proprietary interest rate method to ensure borrowers have the best chance to receive below-market interest rates. Interest rates are fixed up to 30 years.	Ongoing, rolling application. Total funding program amount is \$100M.
Replacing, Removing, Or Upgrading Underground Storage Tanks	Stormwater / Water Supply	Active	State	CA State Water Resources Control Board	Finance up to 100% of costs necessary to upgrade, remove, or replace UST project tanks to comply with Health and Safety Code.	Must be UST owner / operator and also: (1) be a small business, (2) be CA-based, (3) facility of project tank location must have been legally in business retailing gasoline after Jan 1st, 1998, (4) all tanks owned & operated by grant must be in compliance	Typical projects include: removing / replacing single-walled USTs or piping; UST upgrades; under-dispenser containment boxes; electronic monitoring systems; leak detection testing.	Implementation / Infrastructure	Not required.	UST Operation / Owners eligible for \$3K-\$70K. Remote public fueling stations are eligible for \$140K additional funding. No period of performance.	Ongoing, rolling application.
Proposition 68 Rivers and Streams Grant Program Severely Disadvantaged Communities	Climate Resilience / Coastal Protection / Habitat Protection & Restoration	Active	State	CA Department of Fish and Wildlife	For restoring and protecting rivers and streams in support of fisheries and wildlife. Priorities include reconnection of rivers with floodplains, riparian habitat restoration, protection of upper watershed forests and meadow systems.	Nonprofit, public agency, Tribal Government. Additional eligibility requirements apply to public utilities, urban water suppliers, and ag water suppliers.	Examples include: restoring / protecting riparian and aquatic habitat, reconnecting historical floodplains, modernizing stream crossings, restoring river channels, improving ecological function, improving local watershed management, restoring and protecting upper watershed forests / meadows. Severely disadvantaged community has median household income of less than 60%.	Planning, Implementation, Acquisition	Not required.	Period of performance is 3 years.	Ongoing, rolling application. Total funding available is approximately \$10M.
Water Recycling Funding Program	Water Quality / Water Supply	Active	State	CA State Water Resources Control Board	Provides technical and financial assistance to agencies for water recycling projects that promote beneficial use of treated municipal wastewater. Applicants must comply with CWSRF policies and guidelines.	Planning grants: Only local public agencies are eligible to receive a planning grant. Construction grants: local public agencies, 501(c)(3) nonprofits organizations, public utilities, Native American Tribes, mutual water companies. Dependent on funding source.	Include: recycled water treatment / storage / distribution, groundwater recharge, indirect potable reuse, and surface water augmentation. Construction projects must offset or augment state or local fresh water supplies.	Construction, Planning	50% local cost share requirement. Cost share may be reduced for communities that meet DAC criteria under CWSRF.	Period of performance through June 30, 2027. Grant is calculated at 35% of eligible construction costs up to \$15M per project.	Ongoing, rolling application. Total funding available is \$4.9M.
RMC Grant Programs	Habitat Conservation / Climate Resilience	Active	Regional	San Gabriel and Lower Los Angeles Rivers and Mountains Conservancy (RMC)	The RMC is awarding grants and interagency agreements with the goal of creating open space, habitat restoration, expanding green space in disadvantaged communities, and protecting the watersheds of the San Gabriel and Los Angeles Rivers, Dominguez Channel, and Catalina Island.	State and Federal agencies, Tribal entities recognized by the US Federal Register or as a California Native American tribe, local public agencies (including water districts and school districts), local conservation corps, nonprofit organizations, Joint Powers Authorities	Projects must be consistent with RMC's enabling legislation (Public Resources Code, Division 22.8), Common Ground, its Environmental Justice and Tribal Consultation Policies, and existing and adopted river and flood control projects/plans. Projects should create, expand, and/or improve public open space throughout the region by improving access, habitat quality, water security, and wildfire resilience, as well as promote stewardship of the landscape via stakeholder involvement and long-term maintenance that will encourage environmental, social, and economic benefits. Non-bond Priorities Grant Programs include: Wildfire Prevention Grant Program, Climate Resilience Grant Program, Lower Los Angeles Urban Streams and Rivers Program. Applicants do not need to specify the specific funding source for their project.	Planning, Implementation, Acquisition	Not required.	Typically \$3K - \$2M. Small grants may be awarded from \$50K-\$100K	Ongoing, rolling application period. Applications will be submitted in two phases: a concept proposal and a full application. The concept proposal will first be reviewed by RMC staff before selecting which proposals will move forward to submit a full application.
Brownfields Revolving Loan Fund (BRLF) Grant Program	Brownfields	Active	State	California Department of Toxic Substances Control	Provides grants for two types of brownfield sites: hazardous substance release sites and petroleum sites. Grantees may also use funds for pre-cleanup site assessments and for environmental cleanup.	Local governments, Tribal entities, nonprofit developers not liable under CERCLA section 107	The grant program funds cleanup and assessment related costs. Schedule meeting with program manager to discuss eligibility	Assessment, Implementation	Not specified.	Not specified.	Ongoing, rolling application period.
Senate Bill 1 Sea Level Rise Adaptation Planning Grant Program	Climate Resilience / Coastal Protection / Habitat Protection & Restoration	Active (Planning Projects) Upcoming (Implementation Projects)	State	Ocean Protection Council	OPC's SB 1 SLR Adaptation Planning Grant Program (SB 1 Grant Program) aims to provide funding for coastal communities to develop consistent SLR adaptation plans and projects to build resilience to SLR along the entire coast of California and San Francisco Bay. The SB 1 Grant Program is designed to ensure all California coastal communities are preparing for SLR through a consistent and equitable process utilizing a set of SLR Adaptation Criteria (SLR Criteria).	Local governments, regional governments, federally recognized Tribal Governments	Track 1: SLR Adaptation Planning supports planning for local governments. Activities include pre-planning, data collection, and planning. Track 2: SLR Implementation Projects includes nature-based and green-gray hybrid adaptation projects/feasibility study/design plans.	Planning, Implementation	Not required.	Planning: \$200K-\$1.5M Implementation: \$1.5M-\$10M	Track 1 (planning) proposals will be accepted on a rolling, quarterly basis. Track 2 (implementation) proposals will be selected through a competitive process, anticipated to be released in mid-late 2025.
Third District Discretionary Funding Grant	Parks / Green Space / Recreation / Education / Community Services	Active	Regional	Los Angeles County Executive Office of the Board - District 3	To support community-serving organizations in the 3rd District	Requesting organization must have a location in the 3rd District; requested funds must benefit 3rd District constituents and communities. Non-profit and for-profit non-sectarian organizations.	Requests may include, but are not limited to: educational/recreational projects, arts and cultural programs, environmental awareness programs/projects, public safety programs, health and social service initiatives and programs. Grants can also help an organization with one-time funding purchase equipment, needed materials, repairs or augmentation of a physical site, etc. "Seed" grants are also available to enable new and innovative work, if all other criteria is met.	Not specified.	Not required.	Not specified.	Ongoing, rolling application.
Fourth District Discretionary Grant	Parks / Green Space / Recreation / Education / Community Services	Active	Regional	Los Angeles County Executive Office of the Board - District 4	The purpose of the Fourth District Discretionary Grants is to support organizations within the Fourth District that are providing services to our residents. Funds must be used to benefit the community and are not for private purposes or activities.	The agency requesting funding should serve Fourth District residents. Agency type not specified.	Grant funding should support direct services or community events. Each funding grant must meet a social need of the residents of the County, including arts, health, law enforcement, public safety, rehabilitation, education, legal services, and disability services.	Not specified.	Not required.	Not specified. Grants over \$2,500 must submit a line-item budget.	Ongoing, rolling application.
First District Community Grants	Parks / Green Space / Recreation / Education / Community Services	Upcoming	Regional	Los Angeles County Executive Office of the Board - District 1	The purpose of the Community Grant Program is to develop or support services that meet the diverse needs of the residents of the First District, ranging from but not limited to health, violence prevention, environmental justice, immigration, and jobs.	Non-profit organizations with a project that supports First District residents. Applicants who have received a Community Grant may reapply for additional funding. Applications should improve the well-being of residents, especially of those most vulnerable or economically disadvantaged.	Funding for program costs for existing services, planning new projects, or implementation/expansion of services. Ongoing staffing, operations, and/or salaries are not generally considered. Second District Funding Request	Parks / Green Space / Recreation / Education / Community Services	Upcoming	Regional	Los Angeles County Executive Office of the Board - District 2	To support and develop services that support the diverse needs of the residents of the Second District. Funding will improve the quality of life for residents. The Second District's office strives to provide these funds through an equity lens, focusing funds on services that support our most underrepresented and underserved communities. The funding is intended for small grant amounts and is one-time in nature.	Not specified. Priority given to organizations based out of the 2nd District.	Funding request must meet the social needs of the population of Los Angeles County, including but not limited to the areas of health, public safety, rehabilitation, well-being, education, and legal services, and to assist in the needs of the physically, mentally and financially challenged persons and aged persons pursuant to California Government Code 26227. Priority will be given to organizations based in the Second Supervisorial District. Requests must focus on serving the residents of the Second Supervisorial District. Funding requests for direct programs or services are prioritized.	Not specified.	Not required.	Not specified.	Currently closed. Small grant funding requests closed on March 31.
