

# FY27-28 Call for Projects: Infrastructure Program Scoring Strategies

SAFE, CLEAN WATER PROGRAM  
7/13/2026

## Agenda

- **Supplemental Guidance Overview**
- **Project Funding Phases**
- **Scoring Criteria Pilot Adaptations**

# Supplemental Guidance Overview

## Supplemental Guidance

### Intent:

- Clarify Feasibility Study Guidelines (FSG) requirements
- Improve Project evaluation and accelerate implementation
- Define Project funding phases
- Align Feasibility Study content with Project attributes/benefits
- Support Project Applicants with benefit estimation

**Link:** [\*Supplemental Guidance to Support Feasibility Study Guidelines\*](#)

## Supplemental Guidance

### Recent changes:

- Added section covering new FSG requirement #20: Watershed Planning Alignment
- Consolidation of Project funding phases: reduced from 5 major phases to 3
- Updates to Scoring Criteria Pilot Adaptations:
  - Revisions to Water Quality/Supply pilots
  - Addition of Community Investment Benefit (CIB) pilot

# Project Funding Phases

## Project Funding Phases

### **Prior to Supplemental Guidance:**

- Project Applicants could apply for:
  1. Planning
  2. Design
  3. Construction
  4. O&M
  5. Bid/Award

### **Under Supplemental Guidance:**

- Streamlined application process
- Consolidated funding request phases:
  1. Design
  2. Construction
  3. O&M
    - a. For previously funded SCWP Infrastructure Projects
    - b. For separately funded Projects

## Streamlined Applications

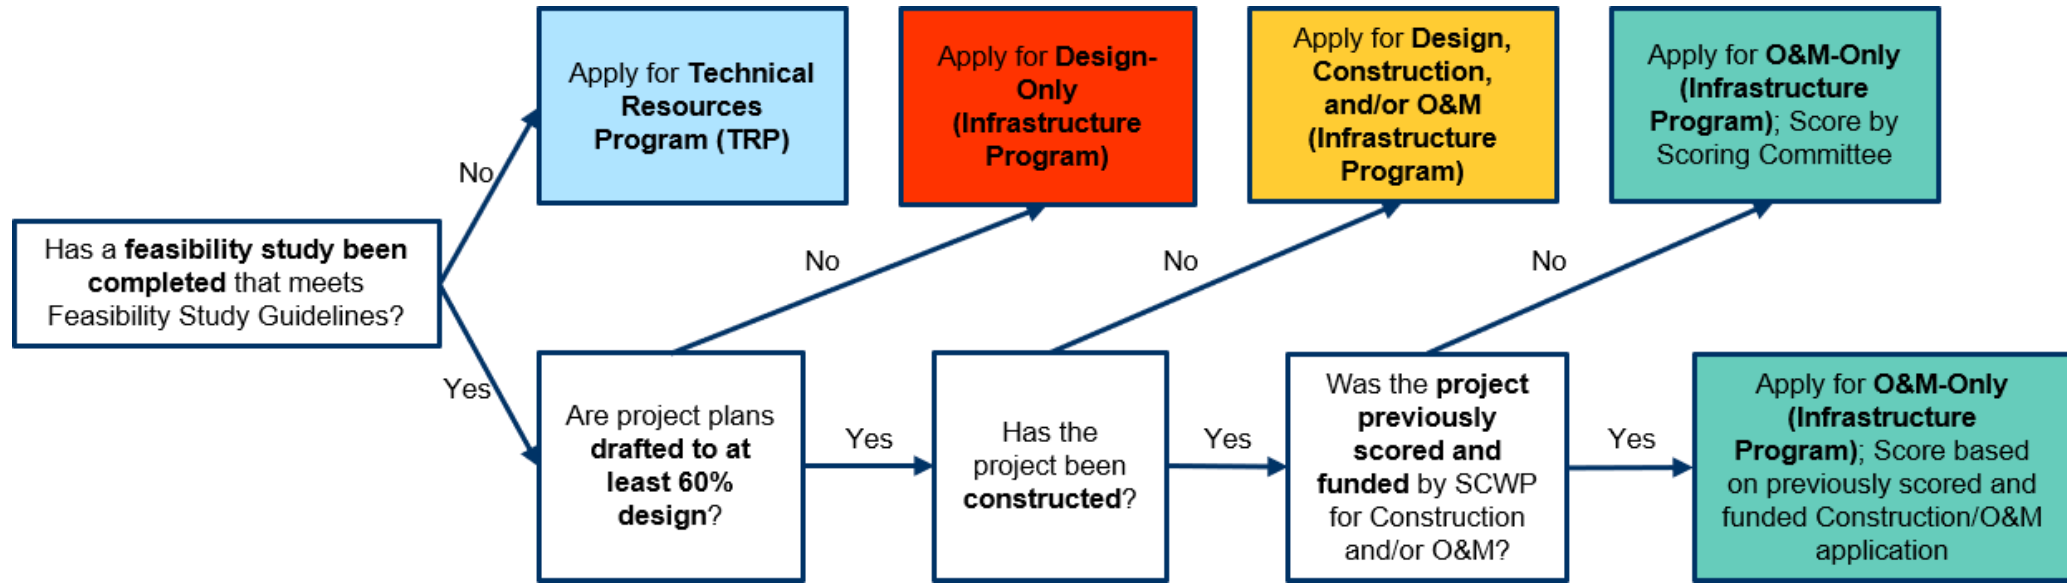

### Why has this funding application framework been changed?

- Support SCWP Goals
- Simplify/clarify application process and requirements
- Avoid redundancy for previously-funded SCWP Projects
  - Incentivize applying for O&M funding
  - Support adequate maintenance of SCWP Projects

### *Example:*

Leveraged Funding: FSG Requirement #18	
Phase	Specific Requirements
Design-Only	<ul style="list-style-type: none"> <li>• Provide documentation <b>demonstrating the certainty of leveraged funding.</b></li> </ul>
Construction	<ul style="list-style-type: none"> <li>• Provide <b>confirmation of leveraged funding and timeline</b>, in the form of support letter, grant award notice, etc.</li> </ul>
O&M (for previously funded SCWP Infrastructure Projects)	<ul style="list-style-type: none"> <li>• Summarize <b>leveraged funding received</b> to date.</li> </ul>
O&M (for separately funded Projects)	<ul style="list-style-type: none"> <li>• Summarize <b>leveraged funding and non-SCW Program Regional Program funded construction costs</b> to date.</li> </ul>

# Streamlined Applications

## O&M Funding Phase

### Two distinct tracks considering previous Scoring Committee input:

- Avoiding redundancy for previously funded SCWP Projects
- Retrofits to existing SCWP Projects
- Demonstrating claimed benefits using monitoring data
- Previous non-SCWP capital investments
  - Treated as matching funds for leveraged funding scoring

### **O&M (for previously funded SCWP Infrastructure Projects):**

Includes O&M funding for Projects and/or retrofits of Projects for which construction has been completed and was previously funded through the SCWP Infrastructure Program.

### **O&M (for separately funded Projects):**

Includes O&M funding for Projects and/or retrofits of Projects for which construction has been completed and was previously funded through an external source to the SCWP Infrastructure Program.

# Scoring Criteria Pilot Adaptions

## Scoring Criteria Pilot Adaptations

### Optional, granularized Scoring Criteria adaptations:

- Water Quality Benefits
  - Pilot tested during FY26-27 CFP
- Water Supply Benefits
  - Pilot tested during FY24-25 and FY26-27 CFP
- Community Investment Benefits
  - Newly developed

## Water Quality Benefit Scoring Adaptation Pilot Rubric

- 1-point incremental scoring
  - Nuanced evaluation of Project benefits
- Option to use 85<sup>th</sup> percentile storm runoff capture volume
  - In lieu of 24-hr BMP capacity
- Objective:
  - Enable a range of project types/sizes while still encouraging substantial Water Quality Benefits and cost-effectiveness

# Water Supply Benefit Scoring Adaptation Pilot Rubric

- 1-point incremental scoring
  - Nuanced evaluation of Project benefits
- Calibrated to historical SCWP Project performance
- Objectives:
  - Align scoring with multi-benefit Project performance and cost
  - Adjust rubric to consider economic changes (i.e., inflation)

Section	Score Range	Scoring Standards
