Initial Watershed Plans –

The Lower LAR Watershed Assessment Initial Watershed Plan compiled by the SCWP includes ‘Key Efforts to Date leveraged for the Initial Watershed Plans’ in Appendix E of that document. The key efforts include, among others, the Ballona Creek Revitalization Plan, Upper Santa Clara River IRWM Plan, and the Pure Water Project Las Virgenes-Triunfo, each of which is outside the boundaries of the Lower Los Angeles River drainage area. Appendix E does not include the Lower Los Angeles River Revitalization Plan (LLARRP) as a Key Effort for the Initial Watershed Plan.

The Lower Los Angeles River Revitalization Plan was completed to reflect the priorities and goals of the communities along the river and needs to be included as a key effort in the SCWP Lower LA river watershed area initial plan. Given the unique challenges and opportunities along the lower river the other plans from outside the watershed would best find relevance elsewhere.
