

Bassett High School Stormwater Capture Multi-Benefit Project

- **Project Scope**

In partnership with Bassett Unified School District, the project will divert urban and stormwater runoff from surrounding areas including unincorporated communities and the cities of Baldwin Park, La Puente, West Covina, into infiltration galleries underneath the Bassett High School fields with a potential total volume storage capacity of 38 acre-feet. The project will also install above ground improvements and Low-Impact-Development features. The project will complement the Amigos de los Rios’ urban greening project within the Bassett High School campus.

- **Project Benefits**

The project will improve stormwater quality of our rivers and ocean, increase our local water supply (Main San Gabriel Basin), provide community enhancement, and provide educational and outreach opportunities.

- **Project Location**

- Bassett High School (755 Ardilla Ave, La Puente, CA)
- Ardilla Ave and E Temple Ave

- **Cost Estimate**

- Total Project Cost: \$37M
- Below is a summary of the potential project partners and cost-breakdown:

Project Partners	85 th Percentile Volume (acre-feet)	Cost-Share
Bassett Unified School District	N/A	\$0M
City of Baldwin Park	0.16	\$0.2M
City of La Puente	5.63	\$5.1M
City of West Covina	20.78	\$20.1M
County of Los Angeles	12.05	\$11.6M
TOTAL	38.62	\$37M

- **Tentative Milestone Schedule**

- Currently – Planning Phase
- 2018 – Complete Project Concept Report with 30% design plans
- 2018 to 2019 – Prepare design plans
- 2020 – Award Construction Contract
