

## **San Angelo Park Multi-Benefit Stormwater Capture Project**

### **○ Project Scope**

The project will divert urban and stormwater runoff from nearby unincorporated communities into infiltration galleries underneath the park fields. The project will also include above ground landscaping, Low-Impact-Development features, and educational signage.

### **○ Project Benefits**

The project will improve the quality of our rivers and ocean, increase local water supply (Main San Gabriel Basin), and provide educational and outreach opportunities.

### **○ Project Location**

- San Angelo Park (245 South San Angelo Ave, La Puente)
  - S. San Angelo Ave and E. Senora St

### **○ Cost Estimate**

- Total Project Cost: TBD
- Volume Captured: Approximately 7.5 Acre-Feet

### **○ Tentative Milestone Schedule**

- Currently – Planning Phase
- 2018 – Complete Project Concept Report with 30% design plans
- 2018 to 2019 – Prepare Design Plans
- 2019 – Award Construction Contract
