Franklin D. Roosevelt Park Regional Stormwater Capture Project

- **Project Scope**
  
  The Project will divert urban and stormwater runoff into infiltration galleries and three infiltration/dry wells. The Project also includes above ground park improvements including a re-designed soccer field with artificial turf, education garden, low-impact-development features, and recreational play areas.

- **Project Benefits**

  The Project will improve the quality of our rivers and ocean, increase our local water supply, provide community enhancement, and educational and outreach opportunities.

- **Project Location**

  - Franklin D. Roosevelt Park (7600 Graham Avenue, Los Angeles)
    - Major Intersection: Graham Avenue and Nadeau Street

- **Cost Estimate**

  - Total Project Cost: $15M
  - Grant Funding: $2M
  - Volume Captured: 8 Acre-Feet

- **Milestone Schedule**

  - In Construction
  - Complete Construction – September 2019
