

View Park Green Alley Stormwater Capture Project

- **Project Scope**

The project will improve an existing alley to capture and infiltrate urban stormwater runoff from the unincorporated area of View Park. The project will also include above ground landscaping, low-impact-development features, and educational signage.

- **Project Benefits**

The project will improve water quality by reducing pollutant such as bacteria and metals from entering the Ballona Creek.

- **Project Location**

- 4356 S. Victoria Avenue, Los Angeles, CA 90008
 - Near S. Victoria Avenue and W. Mt. Vernon Drive

- **Cost Estimate**

- Total Project Cost: \$0.5 M
- Volume Captured: 1.7 Acre-Feet

- **Tentative Milestone Schedule**

- Currently – 30% Design Plans Completed
- June 2018 – Project Concept Report
- April 2019 – 100% Design Plans
- Late 2019 – Award Construction Contract
- Late 2020 – Complete Construction
