

Unincorporated County Super Green Street Project Mulholland Hwy et Al

○ **Project Scope**

To divert urban and stormwater runoff from local unincorporated communities for groundwater infiltration and landscape irrigation reuse. The project will also include Low-Impact-Development landscaping features and educational signage.

○ **Project Benefits**

The project will improve water quality by reducing pollutants such as bacteria from entering the Malibu Creek and ocean and provide an alternate source of water for irrigating the County park facility.

○ **Project Location**

- Various along Mulholland Hwy (Mulholland Hwy, Agoura Hills, CA)
 - Mulholland Hwy near Waring Dr, Careful Ave, and Outlet Tr

○ **Cost Estimate**

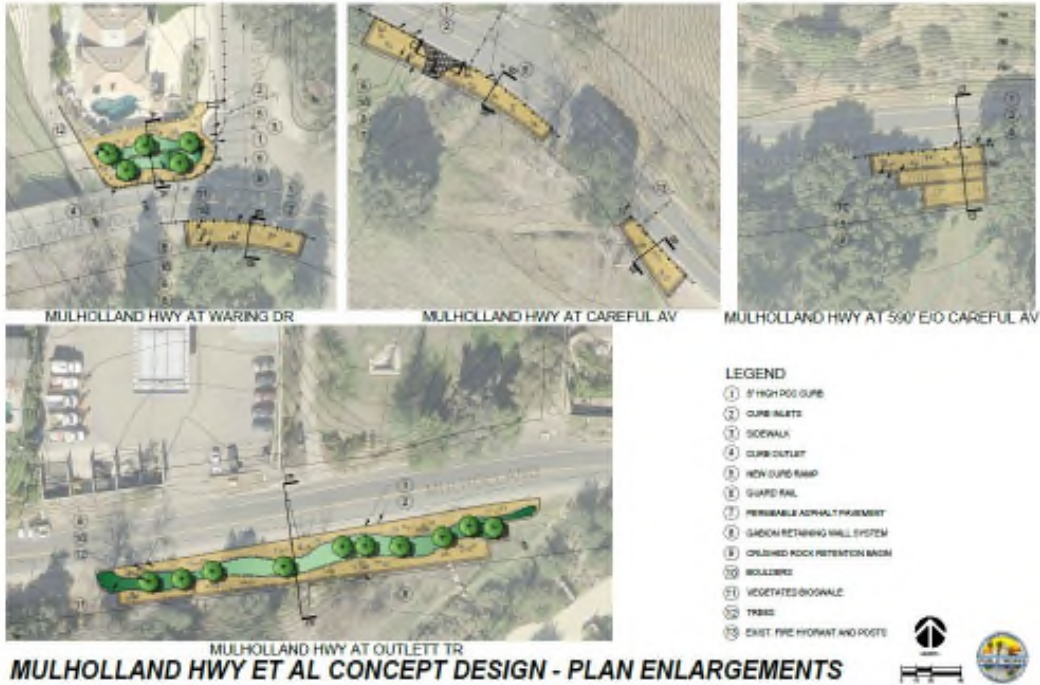

- Total Project Cost: \$3.4M
- Drainage Area: 100% UA
- Volume Capture: 0.52 Acre-feet

○ **Tentative Milestone Schedule**

- 2018 – Complete Project Concept Report
- 2018 to 2019 – Finalize Design Plans
- 2019 – Complete Construction
