Carson Stormwater and Runoff Capture Project at Carriage Crest Park

- **Project Scope**

  The Project is a collaborative project between the County and the City of Carson. The Project, which is led by the City, will divert urban and stormwater runoff into a detention basin underneath the park fields. The runoff will then be released for sanitary sewer treatment.

- **Project Benefits**

  The Project will improve water quality at Wilmington Drain and Machado Lake.

- **Project Location**

  - Carriage Crest Park (23800 South Figueroa Street, Carson)
    - Major Intersection: West Sepulveda Boulevard and South Figueroa Street

- **Cost Estimate**

  - Construction Cost: $18.7 million
    - County provided $5.7 million
    - Partners: Carson, Caltrans
  - Volume Captured: 27 Acre-Feet

- **Tentative Milestone Schedule**

  - In Construction
  - Complete Construction – December 2019
