Long Beach Airport Stormwater Project

- **Project Scope**
  
The proposed project will divert urban and stormwater runoff from the Los Cerritos Channel into infiltration galleries underneath the Long Beach Airport, with a total storage capacity of 33 acre-feet.

- **Project Benefits**
  
The project will improve the quality of our rivers and ocean and augment local groundwater (Central Basin).

- **Project Location**
  
  - Long Beach Airport in the City of Long Beach
    - N. Lakewood Blvd. and E. Spring St.

- **Project Facts**
  
  - Project Partners: Cities of Signal Hill and Long Beach
  - Total Project Cost: $22.75M
    - $7.5M – Funded by LA County Flood Control District
    - $15.25M – Funded by Caltrans
  - Drainage Area: 1,925 acres
  - Total Volume Captured: 33 acre-ft
  - Below are Project Phases
