Jake Kuredjian County Park  
Regional Stormwater Capture Project

- **Project Scope**
  
The Project will divert urban and stormwater runoff for groundwater infiltration and landscape irrigation reuse. The Project will include low-impact-development landscaping features and educational signage.

- **Project Benefits**
  
The Project will improve water quality by reducing pollutants entering Santa Clara River and the ocean and provide an alternate source of water for irrigating the County park facility.

- **Project Location**
  
  - Jake Kuredjian County Park (26265 Pico Canyon Road, Stevenson Ranch)
    
    - Major Intersection: Pico Canyon Road and Stevenson Ranch Parkway

- **Cost Estimate**
  
  - Total Project Cost: TBD
  - Volume Captured: 9.5 Acre-Feet

- **Tentative Milestone Schedule**
  
  - Complete Project Concept Report - Summer 2020
  - Complete Design Plans - Winter 2020
  - Begin Construction - Summer 2020
  - Summer 2021 – Complete Construction
