

Pico Canyon County Park Regional Stormwater Capture Project

○ **Project Scope**

To divert urban and stormwater runoff from local unincorporated communities for groundwater infiltration and biofiltration. The project will also include Low-Impact-Development landscaping features and educational signage.

○ **Project Benefits**

The project will improve water quality by reducing pollutants such as bacteria from entering Santa Clara River and the ocean.

○ **Project Location**

- Pico Canyon Park (25600 Pico Canyon Rd, Stevenson Ranch)
 - Near Pico Canyon Rd & Stevenson Ranch Pkwy

○ **Cost Estimate**

- Total Project Cost: \$6 M
- Volume Capture: 6.3 Acre-Feet

○ **Tentative Milestone Schedule**

- Currently – Planning Phase
- 2018 – Complete Project Concept Report
- 2018 to 2019 – Prepare Design Plans
- TBA – Award Construction Contract
