Subject: Support for Safe, Clean Water Program

Dear Interested Parties:

Brown and Caldwell is proud to support the Safe, Clean Water Program for Los Angeles County. We believe in your vision to modernize your 80-plus-year-old stormwater systems, protect public health and our environment, and maximize a cleaner, locally controlled water supply.

We understand that we live in a water-scarce area and rely heavily on imported water. By enhancing and redesigning existing green spaces, more groundwater can be recharged and more runoff can be captured. Rainfall is an essential, local source of Los Angeles County's water supply. Brown and Caldwell's One Water approach mirrors the County of Los Angeles' Water Resilience Report and overall water resiliency philosophy.

We applaud your foresight and support your move towards implementation of the various programs including the Safe, Clean Water Program.

Very truly yours,

Brown and Caldwell
