d) **Presentation:**

i) **Willow Springs Park: Wetland Restoration Expansion (Technical Resources Program)**

Presentation by the City of Long Beach. Willow Springs Park is 48-acres, of which 12 acres has been revitalized with bioswales and wetlands in 2017. The proposed wetland expansion project consists of an additional 14.5 acres to be revitalized, to include a 1-acre wetland, 7,812 ft of new trails, and restored habitat intended to be completed in phases. The intent of the first phase of the expansion project is to determine if it is feasible to redevelop a low point of the site into a 1-acre constructed wetland as a nature-based flood control solution and stormwater mitigation measure.
