Accommodations to assist persons with disabilities are available if requested at least three business days prior to the Committee Meeting. Late requests will be accommodated to the extent feasible.

Requests for accommodations may be made to:  
[SafeCleanWaterLA@pw.lacounty.gov](mailto:SafeCleanWaterLA@pw.lacounty.gov) or by telephone, to 833-ASK-SCWP

Supporting documentation will be available at the Committee meeting location and on the Safe, Clean Water website at [www.safecleanwaterla.org](http://www.safecleanwaterla.org)

---

**bioswales, mechanical treatment systems, storage cisterns, and subsurface infiltration galleries in Vincent Lugo Park.**

- b) SS: preSIP: A Platform for Watershed Science and Project Collaboration (San Gabriel Valley Council of Governments)

**Presentation by Chad Helmle, President of Craftwater Engineering. As a precursor to the Stormwater Investment Plans (SIP), this preSIP Scientific Study will support the WASC and the SGVCOG by developing a platform to consolidate intertwined goals and disparate project proposals into a balanced, collaborative, and cost-effective plan.**

- c) SS: Load Reduction Strategy Adaptation to Address the LA River Bacteria TMDL for the ULAR Watershed Management Group (San Gabriel Valley Council of Governments)

**Presentation by Brianna Datti, Water Resources Engineer at Tetra Tech. The ULAR Group has asked the SGVCOG to submit a scientific studies application under the Safe, Clean Water Program on their behalf to pursue the necessary funding for development of a Load Reduction Strategy (LRS) adaptation plan, with the goal to adapt the LRS to better align implementation actions in order to successfully reduce potential health risks to recreators.**

- d) SS: Regional Scientific Study to Support Protection of Human Health through Targeted Reduction of Bacteriological Pollution (Richard Watson & Associates)

**Presentation by Richard Watson. Overview of a proposed Regional Scientific Study that will use the latest available technologies and approaches to measure waterborne pathogens across Safe Clean Water Program watersheds to help identify key sources of human health risk, develop cost-effective strategies that better protect human health, and support the regulatory shift needed to accommodate a modernized approach.**

7) Items for next agenda

8) Adjournment

**Next meeting: Wednesday, February 12, 2020 9:00 AM – 11:00AM  
City of Monrovia, Monrovia Library Park,  
321 Myrtle Ave., Monrovia, CA 91016**
