

Safe, Clean Water Program

Watershed Area Steering Committee

Lower San Gabriel River

Date Tuesday, February 11, 2020
Time 9:00am – 11:30am
Location Burns Community Center, 2nd Floor
5510 Clark Avenue
Lakewood, CA 90712

Agenda:

- 1) Welcome and Introductions
- 2) Public Comment Period
- 3) Approval of Meeting Minutes from January 28, 2020
- 4) Committee Member and District Updates
- 5) Discussion Items:
 - a) Updated summaries of Infrastructure Program, Technical Resources Program and Scientific Studies Program Project submittals (LSGR)
 - b) Presentations:
 - i) Infrastructure Program
 - (1) Stormwater Treatment and Reuse System (STAR System) Hacienda Park (City of La Habra Heights)**

Presentation by Christopher Rochfort (STAR Water Group), The project aims to capture, treat and store stormwater runoff from the Park and nearby catchment for beneficial reuse. Permeable trench system, underground stormwater storage modules and water-efficient landscaping of the STAR System are able to provide long-term cost-efficient stormwater reuse option, including onsite irrigation, and reduce heat island effects for the local community. The system also effectively manages and treats soluble pollutants in the storm runoff, which protects nearby water assets and environment.
 - (2) Skylinks Golf Course at Wardlow Stormwater Capture Project (City of Long Beach)**

Presentation by Oliver Galang (Craftwater Engineering) and Richard Watson (Richard Watson & Associates). The proposed project consists of a regional multi-benefit

Accommodations to assist persons with disabilities are available if requested at least three business days prior to the Committee Meeting. Late requests will be accommodated to the extent feasible.

Requests for accommodations may be made to:
SafeCleanWaterLA@pw.lacounty.gov or by telephone, to 833-ASK-SCWP

Supporting documentation will be available at the Committee meeting location and on the Safe, Clean Water website at www.safecleanwaterla.org

stormwater capture facility that will divert stormwater and urban runoff from the Wardlow Channel into an undeveloped are on the NE of the Skylinks Golf Course. This Project was identified for implementation in the Los Cerritos Channel Watershed Management Program.

(3) Hermosillo Park (City of Norwalk)

Presentation by John Hunter (John L. Hunter and Associates). Hermosillo Park is located in the City of Norwalk near two major storm drains. New soccer/multi-use fields are anticipated to be constructed soon and this is an opportunity to install a stormwater capture and treatment system under the fields.

(4) Cerritos Sports Complex Project (City of Cerritos)

Presentation by Mike O'Grady (City of Cerritos). The project will entail the construction of a regional stormwater capture and infiltration facility and enhancements to the play surface of the park.

- ii) Technical Resources Program
 - (1) None
 - iii) Scientific Studies
 - (1) None
 - c) Discussion of Watershed Area Priorities and the evaluation process to develop the Stormwater Investment Plan
- 6) Voting Items:
- a) None
- 7) Items for next agenda
- a) Presentations
 - i) Bellflower Simms park Stormwater Capture Project
 - ii) Adventure Park Multi-Benefit Stormwater Capture Project
- 8) Adjournment

**Next Meeting: Tuesday, February 25, 2020 9:00am – 11:00am
Burns Community Center, 2nd Floor
5510 Clark Avenue, Lakewood, CA 90712**
