A. Summary of Activities

This quarter, S. Groner Associates Inc. (SGA) completed the following in accordance with our Strategic Outreach and Engagement Plan goals:

UNDERSTAND COMMUNITY NEEDS
SGA continued collecting responses to our Community Needs Assessment Survey, which is available in English and Spanish. To date, we have collected 156 survey responses (see Attachment D for a summary of survey responses).

SOLICIT NEW PROJECTS
SGA held 11 meetings with interested parties to learn about their projects, their potential intersection with SCWP goals, and identify or discuss potential SCWP projects (see Section B).

We have continued to correspond with and support potential project applicants who we met with last quarter. We also contacted all members of the WASC to determine whether they were aware of additional projects in the application pipeline, and received responses from two committee members. SGA developed and published an e-newsletter on March 10 to update interested parties in the watershed about the FY 23-24 call for projects, new SCW Interim Guidance, and cost-share opportunities (view newsletter here). The e-newsletter was delivered to 175 interested parties.

Finally, we met with Culver City to discuss their partnership with Costco on the Washington Boulevard Stormwater project. Based on our learnings, we developed a slide deck with recommendations for identifying public-private partnership opportunities (Attachment E).

SUPPORT CURRENT PROJECT APPLICANTS
SGA has continued to maintain our database of funding opportunities (Attachment C).

INCREASE GENERAL AWARENESS
SGA began identifying and registering for future in-person events to table at in Year 2. We confirmed our first event for Year 2; we will be tabling at an event at Ballona Discovery Park on May 21. See Attachment A and Attachment B to view our event outreach materials.

SUPPORT THE WASC THROUGH INFORMATION SHARING
SGA has been attending monthly meetings of Watershed Coordinators. We continue to meet regularly with Heal the Bay to coordinate all outreach and engagement activities. In February we shared all of our branded materials created to date with Stantec to share with the other Watershed Coordinators.

We collaborated with the Council for Watershed Health to adapt their DAC benefits presentation, which we presented to the WASC at the March meeting (see slides here). For the April WASC meeting, we compiled information about the community engagement efforts of all projects under consideration to facilitate WASC decision-making for the Stormwater Investment Plan (SIP). Lastly, we attended the Regional Oversight Committee meeting in April.
B. Engagement Meetings Held or Attended

SGA held or attended the following meetings with interested parties to share about SCWP, learn about their priorities, and in some cases, identify possible SCWP projects:

C. Potential Cost-Share Partners Contacted

We continue to maintain our database of potential cost-share partners and funding sources to reach out to. This database is attached to this report (Attachment C).

D. Leveraged / Outside Funding Pursued

We have not yet pursued outside funding opportunities.

F. Engagement efforts benefitting Disadvantaged Communities

We have continued to meet and/or correspond with entities who are developing project concepts that benefit Disadvantaged Communities to support them in applying for SCWP funding. These include:

- California Greenworks: Blackwelder Tract Lower Ballona
- Kounkuey Design Institute: Projects include a public housing project and DAC in Culver City
- City Fabrick: West Los Angeles Veterans Affair campus project

Additionally, we collaborated with the Council for Watershed Health to adapt their DAC benefits presentation which we presented to the WASC at the March meeting (see slides here). The presentation
summarized DAC benefits provided by proposed projects and aimed to keep DAC benefits at the top of mind for WASC members as they deliberate on this year’s SIP.

G. Scheduling concerns or issues

There are currently no scheduling concerns or budget issues.

H. Expected activities next quarter

In the upcoming quarter, we anticipate accomplishing the following activities:

Focus Area 1: Understand Community Needs in the Watershed
- Deliver an updated Strategic Outreach and Engagement Plan to the WASC that outlines our outreach strategies and tactics for the next fiscal year
- Continue meeting with interested parties to learn about community needs
- Continue collecting responses to our Community Needs Survey at events and through online outreach

Focus Area 2: Solicit New Projects
- Present information about the Technical Resources Program and Scientific Studies Program to potential project applicants, with a key focus on smaller cities who do not have representation in the WASC
- Support the development and submission of Round 4 project applications that embody Safe Clean Water Program goals

Focus Area 3: Support Current Project Applicants
- Continue to develop our cost-share database
- Conduct outreach to potential cost-share partners to identify opportunities for collaboration
- Identify and share cost-sharing opportunities with current SCWP projects
- Continue efforts to collect data on anticipated future funding needs of funded infrastructure projects
- Continue meeting with and offering feedback and recommendations to potential project applicants as to how their project concepts can best encompass community priorities and meet the goals of the SCWP program

Focus Area 4: Raise Public Awareness About SCWP
- Raise awareness of SCWP at a community event in Ballona Creek Park on May 21
- Identify additional events to attend and/or table in Summer 2022

Focus Area 5: Support the WASC Through Information Sharing
- Give updates at monthly WASC meetings
- Attend monthly Watershed Coordinator meetings
- Complete monthly, quarterly and annual reporting
Outreach Event Materials
PLANTING INSTRUCTIONS:
- Annual
- Full sun
- Plant in fall or early spring
- Seeds do well in dry poor soil

INSTRUCCIONES PARA PLANTAR:
- Anual
- Pleno Sol
- Plantar en otoño y a principios de primavera
- Las semillas crecen bien en suelo seco y pobre

CALIFORNIA POPPY SEEDS
ESCHSCHOLZIA CALIFORNICA

Community Flyer
WHAT IS THE SAFE CLEAN WATER PROGRAM (MEASURE W)?

A PROGRAM TO MODERNIZE L.A. COUNTY’S 100-YEAR-OLD WATER SYSTEM BY:

- **REDUCING TRASH AND TOXINS IN OUR WATERS**
  Every year over 50% of local waterways are classified as having "impaired" water quality.

- **INCREASING LOCAL WATER SUPPLY THROUGH RAINWATER CAPTURE**
  We currently import 2/3 of our water.

- **BUILDING OUR CLIMATE CHANGE RESILIENCY**
  To protect against future droughts.

- **CREATING MORE GREEN SPACE & PARKS**
  52.6% of the County’s population lives in a "high" to "very high" park needs area.

EXAMPLE OF PROJECT IN YOUR COMMUNITY:

**Urban Orchard**
This new park in South Gate will clean captured water for use in a community orchard, educational garden and local wetland habitat.

HOW CAN I GET INVOLVED?

- **TAKE 2 MIN SURVEY**
- **ATTEND A PUBLIC MEETING**

https://linktr.ee/safecleanupwater
¿QUÉ ES EL PROGRAMA DE AGUA SEGURA Y LIMPIA (INICIATIVA W)?

UN PROGRAMA PARA MODERNIZAR EL SISTEMA DE AGUA DEL CONDADO DE LA QUE DATA DE HACE 100 AÑOS:

- REDUCIENDO BASURAS Y TOXINAS EN NUESTRAS AGUAS
  Cada año más del 50% de los cuerpos de agua están clasificados como deteriorados.

- AUMENTANDO LOS SUMINISTROS DE AGUAS LOCALES PRODUCIDA POR LA LLUVIA
  Actualmente importamos 2/3 de nuestra agua.

- CONSTRUYENDO NUESTRA RESILIENCIA AL CAMBIO CLIMÁTICO
  Para proteger contra futuras sequías.

- CREANDO MÁS PARQUES Y ESPACIOS VERDES
  52.6% de la población del Condado vive en una zona con necesidad de parques “alta”, ver “muy alta”.

EJEMPLO DE PROYECTO DEL PROGRAMA DE AGUA SEGURA Y LIMPIA:

Huerto Urbano
Este nuevo parque limpiará el agua capturada para utilizarla en un huerto comunitario, jardín educacional y un humedal.

¿CÓMO PUEDO PARTICIPAR?

RESPONDA ESTA ENCUESTA (2 MIN)
PARTICIPE EN REUNIONES PÚBLICAS

INFRASTRUCTURE PROJECT EXAMPLE
Washington Boulevard Stormwater and Urban Runoff Diversion Project

Water capture and sanitary sewer diversion project.

FUNDED IN: 2020
SCW FUNDING: $3.6 Million
TOTAL COST: $12 Million
PROJECT LEAD: Culver City
WATERSHED: Central Santa Monica Bay

PROJECT FEATURES:
- Subsurface storage system to capture storm event runoff.
- Dry and wet weather runoff will be diverted to sanitary sewer which will be treated at the Hyperion Water Reclamation Plant.
- Some captured water will be used for median irrigation.

PUBLIC-PRIVATE PROJECT EXAMPLE
Washington Boulevard Stormwater and Urban Runoff Diversion Project

This project was identified in the Marina del Rey EWMP plan as necessary for reducing pollution reaching Marina del Rey. When Costco, which occupies ~30% of the drainage area, applied for a redevelopment permit, the City saw the opportunity to partner with Costco to implement this project.

Costco and Culver City entered into an MOU.

**Costco’s Contribution**
- Financially contributed to design, construction, and O&M costs.
- Project partially took place on Costco land. **

**Costco’s Benefits** *
- Are in compliance with NPDES requirements and are able to get their redevelopment permit.
- More cost-effective than implementing their own stormwater project.

*C in this case tax savings was not a significant motivator.
**Actual construction on Costco’s property was limited to small area along the sidewalk for an electrical cabinet.

**Culver City’s Contribution**
- Takes responsibility for NPDES requirements.
- Implements project.
- Takes on liability.
- Financially contributed to project.

**Culver City’s Benefits**
- Got a financial contribution from Costco.
- Gained access to a parcel that captures about 30% of the City’s drainage area to MDR. **
LESSONS LEARNED
Tips for Identifying Public-Private Partnership Opportunities

1. Identify priority zones or parcels that could provide key benefits to your area.

2. Set up an internal mechanism for your permitting office to flag redevelopment projects in priority zones or parcels.

3. Seek out opportunities for mutual benefit. Engage with property owners on how a partnership makes good business sense for them; municipalities may help address stormwater management requirements, maintain infrastructure, and/or share costs that they’d otherwise handle alone, etc.
   a. Tax savings are probably not significant enough to be a primary motivator.
   b. Environmental stewardship may or may not be a significant motivator so don’t lead with it.
