Safe Clean Water Program

Update: Watershed Coordinator

Santa Clara River Watershed Area

September 1, 2022

Land & Water Acknowledgement

The geographic area represented in the Santa Clara River Watershed Area is the unceded ancestral lands and waters of the Tataviam, Chumash, Serrano and Tongva people, the original stewards of this land. We honor their elders both past and present for their exemplary respect for Water.

Through our work, we seek to lift up the stories, culture and community of these California Native American Tribes, and all indigenous people living in the watershed.
